
SOUTHERN SOUTH AUSTRALIA

EXPOSURE

Classes are based on an interpretation of soil landscape map units which are classified according to the component of the landscape with the highest degree of exposure, provided that it accounts for at least 30% of the area.

- Low
- Moderate (plateaux, escarpments, upper slopes, moderate to high sandhills)
- High (coastal)
- Not applicable

NOTES ON USE OF THE MAP

1. The information is derived from limited field inspection, and is subject to change without notice.
2. Boundaries between mapping units should be treated as transition zones.
3. The map is intended to provide a regional overview and should not be used to draw conclusions about conditions at specific locations.
4. The scale of maps should not be enlarged beyond their scale of publication.
5. Independent expert advice should be sought prior to using this information for commercial decision-making.
