Ms Sharon Starick
Chairperson
Natural Resources Management Council
GPO Box 2834
ADELAIDE SA 5000

Dear Ms Starick

In accordance with the requirements of the Public Sector Act 2009 and section 38 of the Natural Resources Management Act 2004, I have pleasure in presenting the annual report and audited financial statement and report of the South Australian Murray-Darling Basin Natural Resources Management Board for the year ended 30 June 2010.

On behalf of the Board I commend this report to you, the NRM Council and our partners and stakeholders.

William Paterson
Presiding Member
South Australian Murray-Darling Basin Natural Resources Management Board
1. FOREWORD

On behalf of the South Australian Murray Darling Basin Natural Resources Management Board it gives me great pleasure to present our 2009-10 Annual Report.

The major highlight for this year was commencing the implementation of our Regional Natural Resources Plan. The Plan was launched by the then Minister for the River Murray, Hon Karlene Maywald on the 30 June 2009. This plan represents a milestone in natural resources management for the region. It takes a major step towards fully integrated management of all natural resources and builds upon and extends the considerable work, investment and achievements that have already been made to protect, preserve and restore the resource for our benefit and those of our children and grandchildren. The Board is committed to the delivery of this Plan with its partners and to communicate the outcomes through monitoring, evaluation and reporting programs.

The Board recognises that now is a critical time for a fresh approach to the delivery of NRM outcomes: a fresh approach to our service delivery, a fresh approach to the way we invest. Just as importantly, fresh approaches to the way we best use the resources and involve people in our region. To achieve the ambitious targets set within its regional NRM plan the Board will require a fresh approach to how it does business. It is time to move from a system which largely merged a number of disparate organisations together (for sound reasons) to developing a system which is integrated and able to achieve landscape scale change.

The Board is determined in its endeavour to deliver real measurable NRM outcomes in the short and long term. The Board also wants to work in the areas in which it has a unique offering – on-ground, community driven NRM work. The Board now acknowledges that it is timely to review its previous approach to NRM delivery to ensure that it can continue to deliver successful long term integrated landscape scale natural resource management outcomes.

A new State initiative, the regional integration of Department of Environment and Natural Resources with the NRM Boards will further enhance the integration of natural resources within the state and allow for more effective and strategic work in the region. The provision of a regional approach, a shift to landscape approaches, and the collaboration and partnering and engaging of local communities will provide a great opportunity to improve natural resources in our region and the state.

The last seven years have produced the lowest inflow on record into the River Murray and this has challenged irrigators, communities and the environment. As part of the State’s response to the drought, and to save water for critical human needs, 11 wetlands were disconnected from the River channel at the start of the year (including Lake Bonney, Barmera). Funding was received from the Murray Darling Basin Authority (MDBA) for ongoing monitoring of the condition of these wetlands during their period of closure. Monitoring revealed the need for re-wetting of some sites for which water was secured during 2009-10.

Also as part of the falling river levels, various investigations and trials were undertaken to inform the management of Acid Sulfate Soils in wetlands between Lock 1 and Wellington.
Again throughout the year the Board actively promoted its role and functions to the community through involvement in many field days, workshops, science forums, youth initiatives, media, newsletters and communiqués.

As my term of being on the SA Murray Darling Basin Natural Resources Management Board expires in December this year, I would like take the opportunity to congratulate the Board on what it has achieved since its inception in 2005, the commitment of the members past and present and the input of many community members on our Natural Resources Management Groups and Committees.

The River Murray Advisory Committee again had a challenging year and I thank that Committee and the input from the Chairperson, Joanne Pfeiffer throughout the year. This Committee provides advice to the Minister for the River Murray and the Board on water allocations, flow entitlements and best management practices and hopefully the outlook for the future is more encouraging and less challenging with improved inflows and outlooks.

During the year regrettably we had the resignation of Bruce Munday as Chairperson of the Ranges to River NRM Group. I would like to thank Bruce along with Ken Stokes (Riverland NRM Group), David Lindner (Rangelands NRM Group) and Alan Piggott (Mallee and Coorong NRM Group) and their members for their valued input, time and commitment that they have given as members of our NRM Groups. I wish Monique White who has been appointed as the new Chair for the Ranges to River Group all the best for the future with that Group. These Groups have supported the Board and staff in addressing community issues such as water allocation, land management, consultation and animal and plant control matters.

To the Board members, firstly I would like to thank two outgoing members in Derek Walker who was our community indigenous representative on the Board and Mike Smith as agency representative for the Department of Water, Land and Biodiversity Conservation for your input and contribution during the term of appointment. To the rest of the Board your involvement this year has most probably been much greater than in the past with additional planning sessions, meetings and workshops as we have explored landscape change proposals, future directions and business and strategic planning for the future. I thank you for your input, effort, time and commitment during the year. To those members that joined me in 2005 on this Board and whose terms expire this coming financial year a particular thank you to you all. To the rest of the Board I wish you all the best for the future and the challenges and interesting times that will be ahead. The support, advice and assistance provided by our Government Agency and Local Government representatives on the Board is invaluable to both myself and the members of the Board and I thank you for your time and commitment.

I would like to thank members of all the other Committees established by the Board including our Water Resource Advisory Committees, Water Allocation Planning Committees, Local Government Advisory Committees and Community Reference Groups for your time and contribution.

I would also on behalf of the Board like to thank our past Minister for the River Murray, Hon Karlene Maywald for the time, support and encouragement that she gave to the Board during her time as Minister. The Board looks forward to working in the same capacity with Minister Caica in the future.
The 2009-10 Annual Report highlights a lot of achievements for the year for which much of the thanks go to the dedicated efforts of our General Manager and the staff. I would like to express my appreciation and commend all the members of the staff for their contribution and productivity throughout the year from the members of the Board.

Finally, I would like to sincerely thank the Hon Paul Caica, the Minister for the River Murray, State Government Agencies, Local Government and the community that the Board has been involved with throughout the past year for their ongoing support and input. It is only possible for the Board to achieve its goals with the support, partnership and active involvement and input of all these people. The Board looks forward to continuing these close working relationships in the future.

William Paterson
Presiding Member
South Australian Murray-Darling Basin Natural Resources Management Board
2. PLANS AND OBJECTIVES

Natural Resources Management activities undertaken by the South Australian Murray-Darling Basin Natural Resources Management Board are consistent with the strategic directions set out in South Australia’s Strategic Plan – Creating Opportunity and with the State Natural Resources Management Plan.

2.1 Vision

The vision for the SA Murray Darling Basin Natural Resources Management Board is:

*A healthy living landscape meeting the social, environmental and economic needs of the community and ensuring the rights and wellbeing of future generations*.

2.2 Goals

The SA Murray Darling Basin Natural Resources Management Board has identified four goals as part of its Regional Natural Resources Management Plan to address natural resources management within the region. These are:

**Goal 1:** Landscape scale management that maintains healthy natural systems

**Goal 2:** Using and managing natural resources within ecologically sustainable limits

**Goal 3:** Communities, governments and industries with the capability, commitment and connections to manage natural resources in an integrated way

**Goal 4:** Integrated management of threats to minimise risks to natural systems, communities and industry.

2.3 Guiding Principles for NRM in the Region

In addition, the Board has designed the below guiding principles to achieve the goals.

- Work together for success—partnering with the community, government and industries to reach goals and targets for our region.

- Build knowledge—sound decision-making in natural resources management is supported by increased awareness and knowledge that is valued by the region.

- Strive for balance—undertaking natural resources management activities that support a healthy economy that is meeting social and environmental objectives.

- Think innovatively—using creativity and leadership to manage our natural resources for the future.
• Manage holistically—ensuring integrated landscape management by managing landscape components and processes together rather than dealing with issues in isolation.

• Learn from results—using an adaptive management approach to natural resources required to drive and support the long-term goal of ecologically sustainable use.

• Work within limits to ensure the future—working within sustainable limits to protect the capacity of our resources to provide services upon which the wellbeing of current and future generations depends.

• Prevent rather than cure—preventing the degradation of natural resources by dealing with causes is preferable to rehabilitation and treating symptoms.

Both the vision and goals are long-term 50-year statements that describe the Board and community’s aspirations for NRM in the region.

2.4 South Australia’s Strategic Plan

The SA MDB NRM Board completed the development of a new “comprehensive” Regional NRM Plan as required under the Natural Resources Management Act 2004. The Plan was approved by the Minister for the River Murray on the 28 April 2009 and became operational on 1 July 2009. Through the development of the South Australian Murray-Darling Basin Natural Resources Management Plan, the Board has been cognisant of aligning the organisation to the strategic directions set out in South Australia’s Strategic Plan – Creating Opportunity.

The six strategic objectives from South Australia’s Strategic Plan Creating Opportunity are:

• Attaining sustainability

• Growing prosperity

• Improving well-being

• Fostering creativity and innovation

• Building communities

• Expanding opportunity

The Board currently works under program areas and the table below outlines the links between the Board activities and the objectives of the South Australian Strategic Plan and the State Natural Resources Management Plan.

The Board’s Regional Natural Resources Management Plan came into effect on 1 July 2009 and takes account of all regional responsibilities of the NRM Board specified in the South Australian Strategic Plan. Target Action Plans developed by State Agencies, and the Board align the regional NRM Plan to the sustainability targets of the State Strategic Plan. During this year the Board aligned its current resource condition targets and program-level reporting, as appropriate, to the SA Strategic Plan sustainability targets.

#### 2.5 State Natural Resources Management Plan

The State NRM Plan identifies a 50-year vision for natural resource management in South Australia. The State NRM Plan contains four goals:

- Landscape scale management that maintains healthy natural systems and is adaptive to climate change.
- Prosperous communities and industries using and managing natural resources within ecologically sustainable limits.
- Communities, governments and industries with the capability, commitment and connections to manage natural resources in an integrated way.
- Integrated management of biological threats to minimise risk to natural systems, communities and industry.
The Board’s strategic goals, strategies and associated actions are guided by the State NRM Plan goals at all levels.

The Board has developed a vision for the region. “A healthy living landscape meeting the social, environmental and economic needs of the community and ensuring the rights and wellbeing of future generations” and adopted goals for the new Regional NRM Plan consistent with those of the State NRM Plan.

To ensure consistency, the Regional NRM Plan was developed in close consultation with state agencies and has many critical links to the State NRM Plan. The Regional NRM Plan’s vision aligns well with the State NRM Plan’s vision by encompassing the environmental, social and economic aspects of natural resources management. Its guiding principles reflect the same intent as those of the State NRM Plan and the overarching goals provide a regional perspective of the State NRM Plan’s goals. There is also natural alignment between the two plans at the target (RCT), milestone (MAT) and strategy (action) levels, recognising the differing terminology between the two plans.

By 2011, no further net loss of natural habitat (terrestrial, marine and aquatic) extent and condition below that of 2006

By 2020, a net increase in ecological connectivity across all terrestrial, marine and aquatic ecosystems compared to the 2006 values

By 2011, the capacity of people in the community, institutions and regional organisations to sustainably manage natural resources will be greater than in 2006

3. OPERATIONS AND INITIATIVES

3.1 Regional NRM Plan

The Regional NRM Plan was developed through an extensive process of consultation and engagement with the regional community, and was adopted by the Minister for the River Murray, the Hon Karlene Maywald, on 28 April 2009. Following adoption by the Minister, the Regional NRM Plan was presented before the Natural Resources Committee of the South Australian Parliament for endorsement of the regional NRM levy proposed in the Business Plan (Volume Four). The Regional NRM Plan came into full operation on 1 July 2009.

The Regional NRM Plan comprises four volumes:

**Volume One - Strategic Plan (2009 – 2019):** The Strategic Plan provides direction and sets challenging targets for NRM in the region. It includes the vision, goals, guiding principles, resource condition targets, management action targets and the actions required to achieve these targets.

**Volume Two - State of the Region:** The State of the Region describes the natural resources of the region, and reports on their current state and condition, as well as trends in state and condition.

**Volume Three - Regulatory and Policy Framework:** The Regulatory and Policy Framework includes the statutory requirements for water affecting activities, pest control, soil conservation and land management. It also aims to achieve alignment between the Regional NRM Plan, local government development plans, and NRM objectives.
**Volume Four - Business Plan (2009 – 2012):** The Business Plan outlines the actions to be undertaken by the SA MDB NRM Board in order to implement the Strategic Plan and meet the requirements of the Regulatory and Policy Framework.

The Regional NRM Plan has an asset-based structure, with five asset-classes of People, Water, Biodiversity, Land and Atmosphere. For each asset class there is an asset vision, long-term resource condition targets, medium-term management action targets, and actions.

The development and documentation of the targets and actions was assisted by the use of a program logic approach, a planning tool that is used to help design and evaluate plans or programs, and aims to record the expected cause and effect relationships between the components of the plan (e.g. between goals, RCTs, MATs and actions).

**Implementation of the Regional NRM Plan**

The Regional NRM Plan sets the direction for natural resources management in the region for the next 10 years. Importantly it is the sole NRM plan for the region and seeks to guide the NRM planning and investment decisions of all regional stakeholders. Through implementation of the Regional NRM Plan, the Board seeks to:

- Strengthen its existing partnerships and develop new partnerships with organisations directly involved in the management of the region’s natural resources
- Mutually develop and co-invest in innovative new strategies and actions to achieve the goals and targets of the Regional NRM Plan and thereby the better management and/or protection of the region’s natural resources
- Support individuals and organisations to increase their participation in NRM in the region.

The Board will report back on a regular basis to stakeholders and the regional community on progress in the implementation of the Regional NRM Plan. This will include an Annual Review of the Regional NRM Plan as required under the *Natural Resources Management Act 2004*, as well as regular reporting and publication of outcome information.

**3.2 Regional NRM Planning and Programs**

**Implement the Regional Research Plan and Prospectus**

The Board hosted a Regional Science Forum in November 2009 to showcase research undertaken in the region to staff from the Board, scientists, Board members and community members.

The event was co-sponsored with the Centre for Natural Resource Science. The common themes of the day were for investors in environmental and natural resources management to form strong partnerships between researchers and planners/policy makers, to invest in long-term monitoring and to focus investment where it is likely to achieve greatest outcomes. Over 100 people attended the forum.
Development of the SAMDB NRM Board Monitoring, Evaluation, Reporting and Improvement (MERI) Plan

The MERI Plan sets out the principles and processes that will be used by the Board in reporting progress made against the Regional NRM plan. This plan represents a “learning by doing” approach which is quite different to previous MERI plans that have been developed in the region.

Develop and implement Evaluation and Reporting schedules

The development of the Evaluation and Reporting schedules sets a basis of how information will be reported to different levels of the organisation. This is the first time that these processes have been documented and the clear reporting relationships defined.

Annual Regional Outcomes Reporting

The purpose of the 2010 Regional Outcomes Report is to provide strategic direction for the Board’s Business Unit Managers to scope projects and develop budget forecasts for the 2011-12 Business Plan and to support the Board’s decision making with regard to funding allocations for the 2011-12 Business Plan.

The process to develop the report was an opportunity to reflect on the first year of implementation of the SA MDB Regional NRM Plan: to assess progress against the NRM Plan performances measures and check that the rationale behind the NRM Plan remains sound and is continually improved. The focus of the 2010 Regional Outcomes Report was to assess progress against the 3-5 year Management Action Targets (MATs) and undertake a brief review of the logic and relationships between MATs and Board projects.

The process to develop the report included the collection of data and information, which constituted lines of evidence and context relating to each MAT. A number of facilitated natural resource-themed workshops were held (e.g. sustainable irrigation, water quality, Water Allocation Planning and aquatic biodiversity) that brought experts together to add their expert local knowledge to the lines of evidence and allocate an achievement ‘score’, explanatory statement and confidence rating for the assessment of each MAT.

The workshops and Regional Outcomes Report process were well received by participants with the majority believing that workshops were an effective process to evaluate MAT progress and that participation helped them understand progress toward the MATs, the logic behind the MATs and the types of evidence available to evaluate progress.

The findings of the Regional Outcomes Report will be presented to the Board in the second half of 2010.

Hotspot Evaluations

The Hotspot Evaluations are a new annual initiative of the Board and the Planning Team. The purpose of these evaluations is to enable the Board and staff to take a more in-depth look at a particular component of the Board’s business and activities. The intent is that the evaluations also increase Board and staff understanding and capacity to undertake evaluations. These evaluations were externally facilitated however with an element of shared learning to build staff capacity.
Community Monitoring in the SA MDB NRM Rangelands Region

The project for community stream and groundwater monitoring was undertaken in the Rangelands to support the ongoing and extension of baseline water resource information for the area.

BOARD COMMUNICATIONS

Core communications activities

By 30 June 2010, the review and implementation of the Board’s Communications Strategy was 90% completed. A part of the review included the completion of a market analysis survey. These results along with the new NRM delivery strategy being developed in consultation with the NRM Groups will be used as basis of the Communications Strategy for 2011-2014.

Promotion of NRM

Several very successful field days and events were undertaken in various locations throughout the year, including Burra, Eudunda, Karoonda Mt Barker, Mt Pleasant and the Riverland.

Over 79,000 visits to the website were recorded during 2009-2010. The Board’s website maintenance upgrades were completed and a statistical monitoring package was implemented and reported on monthly. A new website structure and content was completed.

Two high quality editions of ‘The Current’ along with a 2010 levy brochure were prepared and distributed to 19,000 homes within the region. These highlighted projects and achievements of the Board.

Communications support

The Board aimed to improve the effectiveness of its communications. In March 2010 it commenced tracking of media activities, and it showed there were 52 media releases distributed, 5 television interviews, 33 radio interviews conducted and 105 newspaper articles in both the Advertiser and regional papers over the four month period March to June.

Water Allocation Planning

The 2009-10 period saw the adoption of the Marne Saunders Prescribed Water Resources (PWR) water allocation plan by the Minister for the River Murray, formal consultation on the Peake Roby and Sherlock PWR water allocation plan and considerable progress made towards completing the Mallee and Eastern Mount Lofty Ranges PWR water allocation plans. Consultation on plan content with Advisory Committees and engagement with the public positively assisted in shaping “fit for purpose” policy across all plans under development. The Business Unit was also instrumental in developing and providing appropriate information from the region for input to the proposed Murray Darling Basin Plan.

NRM Engagement

The NRM Engagement Business Unit includes NRM Education, the Aboriginal Partnerships Project, Community Capacity Building the NRM Volunteers Support Project and Engaging Farming Groups in Improved NRM.
The NRM Education Project continued to work with schools and facilitate a range of programs for teachers and students. The project provided information to 100% of schools in the region and has actively engaged with 83% in one or more of the project’s activities.

The Aboriginal Partnership Project (APP) continued to establish partnerships with the Aboriginal community, funding bodies and key NRM properties across the region with its Aboriginal Learning on Country and Working on Country Projects. 19 Aboriginal community members were engaged in full time training and employment projects on Calperum Station, Gerard and Monarto Zoo. APP staff worked closely with the NRM Education project to deliver Aboriginal NRM sessions with school groups in the Riverland.

The Community Capacity Building project is delivered by the ten Local Action Planning (LAP) Associations in the region, the River Murray Urban Users Group, the Regional Council of Goyder NRM Officer and the Strathalbyn and Mt Pleasant Community Natural Resource Management Centres. The project supported eleven LAP Associations and 135 other community groups, facilitated 131 community NRM workshops / tours / displays, produced 28 community NRM newsletters and 312 other publications, engaged 32 schools, evaluated 139 funding applications submitted for community NRM projects (total sought: approximately $8.7m, total approved approximately $2.3 million supported 2481 volunteers in the region and engaged 2398 short-term volunteers (Scouts, CVA etc), developed 12 partnerships with Aboriginal communities and undertook 81 activities to promote awareness of Weeds of National Significance.

The major activity of the NRM Volunteer Support Project has been the development of the Regional NRM Volunteer Strategy due for completion in September 2010. The project also implemented the inaugural ‘NRM Volunteer Small Grants’ using a simplified application and reporting process. Forty community groups accessed support through this grant for a broad range of projects including the purchase of plants, equipment for on-ground works and monitoring, volunteer training, community workshops and field days, the production of education materials, newsletters and signage and the employment of contractors to assist volunteer groups with weed control projects.

The Engaging Farming Groups in improved NRM project resulted in the installation of two automatic weather stations and three soil moisture monitoring sites across the Mallee, the development and completion of a Mallee Landholder survey and working with landholders on specific farming issues.

**Sustainable Irrigation**

Key achievements for the Sustainable Irrigation Business Unit included a successful round 1 application in the Australian Government’s On-Farm Irrigation Efficiency Program. This program will see in excess of $1.6 million invested in on-farm water savings projects in the SA MDB region over the next 2 years.

Additional external funding was also sourced through both the Bureau of Meteorology (BoM) and Woolworths/Landcare that supported the implementation of regional irrigated land management projects.

The regional weather station network continued to operate to a high standard during 2009-10 with the recent Hotspots Evaluation confirming that irrigators use this resource extensively to

__________________________________________________
SA Murray-Darling Basin NRM Board Annual Report 2009 - 2010
Page 17
help inform their on-farm decision making. Seven rainfall monitoring sites were upgraded with funding provided by the BoM. Funding has also been received through the BoM program to significantly upgrade the network’s data management system and web interface including a formal data quality control system.

The unit presented to the Murray Darling Basin Authority (MDBA) Basin Salinity Management Strategy (BSMS) Independent Audit Group at their annual review. This allowed the auditors to gain a better understanding of the work that the Board’s Sustainable Irrigation Program has been undertaking in the SA MDB region that contributes towards the achievement of the high level BSMS objectives.

Staff from the Sustainable Irrigation unit worked collaboratively with the Riverland West LAP during 2009-10 to support the newly formed Young Irrigator Group in this region. The group was established as a result of a successful application into the DAFF Next Generation Farmers program. The group and its associated activities will continue in 2010-11 with funding provided through the State NRM program.

WATER QUALITY AND LOCAL GOVERNMENT

Support Environment Protection Authority (EPA) in fostering growth/development of supply side of greywater treatment system market

Board investment supported the finalisation of the new Australian Standard (AS4995-2009) for "Greywater Treatment Systems for Vessels Operated on Inland Waters" during 2009-10. The Technical Committee for this standard was awarded the “Outstanding Committee” award from Standards Australia for 2009. The EPA and its partners (including the NRM Board) received a Premier’s Award in 2009-10 for world-leading efforts towards improving houseboat greywater management on the River Murray in South Australia.

Urban/Industrial water management resources for stakeholders

Strengthening Basin Communities - SA Planning Component

The Board played a pivotal role in securing $1.6 million of Australian government funding for our region's local governments, positioning them to access more funding in the future, and achieving many NRM Plan MATs/activities at the same time. This program is building working relationships between the NRM Board and the local governments.

Cities as Water Supply Catchments

The Board's investment and leadership in facilitating other South Australian investment in this $16 million national project over 5 years is an example of how collaborations with other NRM Board’s and state agencies can be formed to benefit all of South Australia.

Integrated Pest Management

In 2009-10, the Land Operations Business Unit implemented programs in accordance with the Boards Regional Pest Management Strategy. Notable control programs included:

<table>
<thead>

African boxthorn 2272
Khaki weed 140
Boneseed 490
Wheel cactus 320

Priority programs for 2009-10 included:

Preventative Pest Management

Salvinia
NRM Officers removed a quantity of the aquatic water weed Salvinia found growing in a pond, on a property in Goolwa. Follow up monitoring and control will be undertaken by relevant staff to ensure this plant does not enter the Goolwa waterways.

Mexican Feathergrass
Working collaboratively with the Adelaide and Mt Lofty Ranges NRM Board throughout the Fleurieu region, articles were placed in the local newspapers highlighting the discovery of the declared plant Mexican Feathergrass being offered for sale in nurseries. All of the nurseries immediately withdrew all plants from sale. In addition, plants were surrendered from the Goolwa and Strathalbyn townships. All sites have been recorded and will be monitored to ensure any possible new germinations are eradicated.

Managing New And Establishing Infestations

Riverland Feral Pig project
In partnership with local landholders a feral pig information workshop was held on the 10 June 2010. Forty stakeholders attended. The information presented helped to facilitate a program with landholders to remove feral pigs congregating in larger numbers at water holes along the main river channel. State NRM funding enabled the construction, by local landholders, of fifteen traps. These traps were trialled at priority sites. The initial program provided a valuable opportunity for the landholders to see if trapping utilising the designed traps, would work. In less than four weeks a total of 68 pigs were trapped and destroyed. Stage two of the project is expected to continue in the summer of 2010/11.

Goat Management in the Mallee
Working in collaboration with the South East NRM Board a goat control program involving aerial shooting was undertaken in the Mallee area of the Boards. A combination of trapping and aerial shooting on at least 30 properties resulted in 867 goats, 6 deer and 1 fox being destroyed.

Managing Existing Pests

Wheel Cactus and other Opuntia species
A cross-NRM boundary program with the South Australian Arid Lands NRM Board funded by the state government enabled the SA MDB NRM Board to approach landowners within the Terowie district with land infested with *Opuntia robusta*. Six landowner agreements were established whereby the Board through approved contractors funded up to 50% of the cost of *Opuntia* control on their land. This resulted in a total of 24,000 hectares of land and 6078 individual plant recorded points being controlled within the Terowie district.
$5,000 was received from the Department for Water Land and Biodiversity Conservation to implement the control of Hudson pear, *Cylindropuntia rosea*, on a parcel of Crown Land. In the future this area will be monitored to ensure that further germinations are treated when detected.

**Deer policy implementation**

Deer property inspections of 25 properties, managing approximately 1050 deer were undertaken to ascertain fencing standards in line with State regulations. Individual reports for each property outlining the condition of the fence and the required upgrades that are expected to be undertaken by the landholder so as to comply with the regulations were completed. The majority of landholders complied with the required upgrades.

**Rabbit Control**

Summer rabbit control programs were undertaken by 150 landowners and on the key Crown Lands and railway corridors with approximately 22 tonnes of oats and 2 tonnes of pindone treated carrots supplied to landowners.

In addition, at least 45 landholders conducted subsidised rabbit control on targeted road reserves as a result of State complementary funding.

**Roadside Control Program**

The Board in association with its respective NRM groups undertook summer and winter roadside control programs. Winter weeds of particular importance were: African boxthorn, boneseed, Salvation Jane, Horehound, Cape Tulip and Wild Artichoke. Summer weeds of particular importance were: Gorse, Blackberry, Golden Dodder, Innocent Weed and Khaki Weed.

**Golden Dodder**

This annual program to protect downstream horticultural and fodder producers adjacent to the River Murray was successfully implemented on private and crown lands adjacent the River Murray. Inspections along the River Murray from the Victorian Border to Murray Bridge to identify and destroy golden dodder infestations were completed. Land based inspections were also undertaken within known infested areas in the Riverland and the Noonawirra and Yarramundi lagoon system above Swan Reach. Areas still continue to yield small scattered infestations.

**African Boxthorn**

A co-ordinated program of roadside compliance for control of African boxthorns, across 13 rural council areas was undertaken. The program included mapping infestations, processing and forwarding of compliance letters, receipt of replies and enforcement of non-compliance, either by co-ordinating contractors or implementing minor spray works on roadsides.

**LAND MANAGEMENT**

**On-ground works to manage 10,120 hectares of land at long term erosion risk**

This project is on target to achieve 10,120 hectares of long term erosion risk land stabilised and managed by approximately 400 land managers over four years, if current hectares achieved during 2009-10 continue.
Increasing the knowledge and skills of land managers in natural resources management

The formation of localised farming interest groups across the region and the continued support offered to those groups through the land management program has given farmers the opportunity to develop projects in consultation with the Board staff. This generated interest from other farmers to establish similar network groups. The establishment of on-farm grazing trials has increased farmers’ awareness on stubble management, identifying trigger points for livestock management and identifying trigger points to minimise erosion. The data collected and collated at the local level is being linked with similar projects across the broadacre farming area to build a regional perspective.

Protection and management of land

Recognition of the Board’s role and responsibilities under the NRM Act for the management and protection of land is increasing with a rise in the information on land degradation issues or land at risk of degradation received from the community.

FLOODPLAIN AND WETLAND MANAGEMENT

Wetland Disconnection

As part of the State’s response to the drought, and to save water for critical human needs, 6 wetlands were closed in 2008 (including Lake Bonney). The Murray Darling Basin Authority (MDBA) funded monitoring of the condition of these wetlands during their period of closure. Monitoring revealed the need for re-wetting of some sites for which water was secured during 2009-10. The wetlands (except Lake Bonney) have since become dry again.

Murray Futures Riverine Recovery Program

An inventory was generated of the existing infrastructure within the SA River Murray floodplain which is used for wetland management, to restrict water passage or for access across waterways within the SA River Murray corridor. As well as locating existing structures accurately, the condition and performance of each structure was also assessed against minimum design standards. A total of 547 structures were located and assessed. Depending on the type of structure and the work required, repair and maintenance costs have been generated. These data will inform discussion around decisions on which structures should be repaired or replaced as part of any rationalisation effort. In addition, it provides a basis for recommendations on responsibility for ongoing ownership, operation, and maintenance of the structures, issues of liability and potential costs associated with the above.

The Board has taken the lead in establishing an inter-agency working group to progress this matter.

WETLAND PROGRAM

The Wetland Program achieved the following:

In working with community groups (LAP Associations), five priority wetlands were identified and assessed for on-ground works. Investment in these wetlands focused on works to address pest plant and animal control (ie. carp screens, willow removal etc). This work was completed by 30 June 2010.
An additional five wetlands were prioritised for investment through Local Action Planning Associations for the installation of new and/or upgrading of existing wetland water regulating infrastructure.

Ongoing community monitoring programs were undertaken at 11 wetlands while once-off monitoring was undertaken at a further 19 high priority wetland sites. The data collected for a range of parameters has been used to identify the condition of these wetlands in terms of their ecological health and threats, in an attempt to manage these wetlands with little available water.

Identified climate change adaptation strategies to inform wetland and floodplain management along the River Murray in South Australia. This project has produced an assessment method and shortlisted relevant species to be assessed. Assessment of species using this method has commenced. A methodology report and progress report were produced.

A 2GL environmental water allocation was secured from the Commonwealth Environmental Waterholder and The Living Murray. Pumping of water to the wetland assets took place at 19 sites. The majority of the sites were ones where watering last had taken place 3-4 years ago.

The Board facilitated the successful release of endangered purple-spotted gudgeons in Piawalla wetlands.

**Acid Sulphate Soils**

Various investigations and trials were undertaken in order to better inform the management of acid sulphate soils in wetlands between Lock 1 and Wellington, which had been exposed as a result of falling river levels. These investigations enabled the establishment of the bathymetry for 25 wetlands; assessment of the wetlands’ characteristics such as ecology, landscape setting, accessibility, floodplain and levee conditions, structure and vegetation; options for controlling water within wetlands and for separating wetlands from the river channel; and identification of the acid sulphate soil status and spatial extent.

Further work enabled the creation of maps identifying where water would be situated at different river levels; ongoing monitoring at 25 wetlands; understanding the actual hazards presented by acid sulphate soils; reviewing the literature to understand what may happen to each wetland upon re-wetting; development of costing analysis for various management options; the development of a community engagement strategy and case studies of wetlands above Lock 1 that were dried and then re-wet.

**TERRESTRIAL BIODIVERSITY MANAGEMENT**

**Strategic habitat restoration program in the SA MDB**

The completion of the Northern Murray Mallee Landscape Assessment Framework highlighted the need for specific works targeting the sandy dune systems surrounding the Bakara Conservation Park. It specifically identified Triodia understorey within a mallee and tea-tree system on sand as being the key component of landscape. It was identified as critical habitat that was in decline for a suite of small threatened birds of the Mallee. Southern scrub-robin was identified as an indicator species for this suite of birds. Building on this project the Woorinen Recovery Project commenced to implement three years of on-ground works to
improve condition and extent of this priority vegetation community. The first year of on-ground works of the recovery project has resulted in 54 hectares of revegetation on dunes surrounding the Bakara Conservation Park being replanted using 8,500 tubestock and 75 kilometres of direct seeding. In addition, over 25 kilograms of seed was collected locally.

**Community volunteers regenerating bushland**

Bush for Life (BLF) manages 55 sites in the region incorporating 2,127 hectares. Three training events were held by the BFL program in the SA MDB NRM regions including workshops on introductory biodiversity conservation methods and more advanced topics such as native grass management, vegetation identification, propagation, revegetation and maintenance and woody weed control. As a result 127 volunteers were encouraged to get involved in managing BLF sites.

**Biodiversity on-ground works**

The funding of on-ground works to conserve the priority ecological habitats of the region through contracting of Local Action Planning Associations resulted in significant community engagement along with nearly 700 hectares of remnant vegetation protection and another 700 hectares of weeds of national significance weed control within remnant vegetation.

**Northern Arid Woodlands Biodiversity Stewardship (Northern BushBids)**

Woodland BushBids has protected 6,799 hectares of priority vegetation communities consisting of peppermint box woodlands, black oak woodlands and mallee remnants. This area contains critical habitat for threatened species such as the Diamond fire-tail finch and for iconic species such as the southern hairy nosed wombat. The project was funded by the Native Vegetation Council.

**BushBids**

During 2009-2010 conservation management continued on the 2256 hectares of land protected through ten year management plan contracts with private landholders through the BushBids program across the Eastern Mount Lofty Ranges. Data from the Bushland Condition Monitoring sites, set up as part of this project in 2005 and 2006, were resurveyed, as part of the Bushland Condition Monitoring (BCM) report undertaken by the Nature Conservation Society in 2009. This assisted our understanding about changes that can be measured in the BushBids sites. In addition it identified that by increasing the number and spread of BCM sites across the region, change can be monitored in all of our vegetation communities. As a result, a monitoring project focusing on developing a regional baseline for vegetation condition for the region was developed.

**Landscape restoration**

A Regent Parrot Flight Path plan for implementation by community groups in the Riverland was developed. Greening Australia provided technical expertise to community groups and facilitated the creation of action plans and maps to assist habitat recovery for this nationally threatened species. On-ground actions included watering of nesting trees at Hogs Wash Bend and the revegetation of fodder shrubs within flight zones.

The Bush Management Advisor project assisted landholders across the Mallee with the control Weeds of National Significance (WoNS) control within remnant vegetation. Thirty hectares of previously known infestations of boneseed were searched and the remaining plants were completely removed. It was noted that one of the previously known infestation areas
has been eradicated, and that over time the small number of remaining plants will also be eliminated.

**Biodiversity Program Support**

The success of Woodland BushBids as a method to encourage conservation management at a large-scale, across a connected landscape, was a highlight.

**ATMOSPHERE**

**Gap identification for SA MDB NRM region’s vulnerability assessment and sector profile investigation**

Projects that will provide information toward the region’s climate vulnerability assessment have been supported. In particular, "Strengthening Basin Communities" project through the local government team and Riverland project "Helping Landholders Adapt to Climate Change”.

The Board’s participation in the University of Adelaide's Climate Change, Communities and Environment project funded by the Premier’s Science and Research Fund continued to evolve during 2009-10. The Board has representation on both the Steering Committee and Management Group of this project.

**Carbon Neutral Plan for the SA MDB NRM Board**

A carbon footprint baseline for the Board has been established for power, water, and waste fuel at most offices. The Board’s green team plan 2008-14 continued to be a document to progress internal initiatives and bring about internal energy efficiency behavioural change. The Board continued to decrease its fleet vehicle fuel use in 2009-10.

**Renewable energy options and energy efficiencies**

The promotion of renewable opportunities through “champions” was a positive and effective way of demonstrating mitigation and adaptation opportunities in the region. Many articles were produced and renewable case studies were developed for promotion.

**4. ROLE, LEGISLATION AND STRUCTURE**

The South Australian Murray-Darling Basin Natural Resources Management Board was established in December 2004 under the auspices of the Natural Resources Management Act 2004. This report for the 2009-10 financial year fulfils the requirements of Section 38 of the Natural Resources Management Act.

**4.1 Object of the Natural Resources Management Act**

The objects of the Act include assisting in the achievement of ecologically sustainable development in the State by establishing an integrated scheme to promote the use and management of natural resources in a manner that—

(a) recognises and protects the intrinsic values of natural resources; and

(b) seeks to protect biological diversity and, insofar as is reasonably practicable, to support and encourage the restoration or rehabilitation of ecological systems and processes that have been lost or degraded; and
(c) provides for the protection and management of catchments and the sustainable use of
land and water resources and, insofar as is reasonably practicable, seeks to enhance
and restore or rehabilitate land and water resources that have been degraded; and
(d) seeks to support sustainable primary and other economic production systems with
particular reference to the value of agriculture and mining activities to the economy of
the State; and
(e) provides for the prevention or control of impacts caused by pest species of animals
and plants that may have an adverse effect on the environment, primary production or
the community; and
(f) promotes educational initiatives and provides support mechanisms to increase the
capacity of people to be involved in the management of natural resources.

4.2 Administration of the Act

The Minister for Environment and Conservation is responsible for the administration of the
Natural Resources Management Act 2004. Pursuant to Section 6 of the Administrative
Arrangements Act 1994, certain functions and powers of the Minister for Environment and
Conservation in relation to the South Australian Murray-Darling Basin Natural Resources
Management Board have been conferred on the Minister for the River Murray.

4.3 Role of the Board

The regional NRM Board’s role is defined in the Natural Resources Management Act and
includes:

- Taking an active role in the management of natural resources within the region and
  providing advice on natural resource issues;
- Preparing a regional natural resources management plan;
- Implementing the Board’s three-year business plan;
- Promoting public awareness and understanding of the importance of integrated and
  sustainable NRM;
- Providing advice on the assessment of activities or proposals referred under legislation or
  on any matter relevant to the condition or management of natural resources; and
- Undertaking and supporting educational activities and increasing community capacity to
  undertake sustainable natural resource management.

4.4 Functions of the South Australian Murray-Darling Basin Natural Resources
Management Board

Section 29 of the Natural Resources Management Act describes the functions of the South
Australian Murray-Darling Basin Natural Resources Management Board.

(1) The functions of a regional NRM board are—

(a) to undertake an active role with respect to the management of natural resources
within its region; and
(b)  (i) to prepare a regional NRM plan in accordance with this Act; and
(ii) to implement that plan; and
(iii) to keep the plan under review to ensure that the objects of this Act are being achieved; and

c) to promote public awareness and understanding of the importance of integrated and sustainable natural resources management within its region, to undertake or support educational initiatives with respect to natural resources management, and to provide mechanisms to increase the capacity of people to implement programs or to take other steps to improve the management of natural resources; and

d) to provide advice with respect to the assessment of various activities or proposals referred to the board under this or any other Act; and

e) to resolve any issues that may arise between any NRM groups that are relevant to the management of natural resources within its region, to undertake or support educational initiatives with respect to natural resources management, and to provide mechanisms to increase the capacity of people to implement programs or to take other steps to improve the management of natural resources; and

(ea) to undertake an active role in ensuring-

(i) that any Development Plan under the Development Act 1993 that applies within its region promotes the objects of this Act; and

(ii) insofar as is reasonably practicable, that those Development Plans and the board’s regional NRM plan form a coherent set of policies, and, in so doing, when a Development Plan amendment under the Development Act 1993 that is relevant to the activities of the board is under consideration under that Act, to work with-

(iii) in the case of a Development Plan amendment proposed by a council-the council; or

(iv) in the case of a Development Plan amendment proposed by a Minister-that Minister’s department; and

(f) at the request of the Minister or the NRM Council, or on its own initiative, to provide advice on any matter relevant to the condition of natural resources within its region, or on the management of those resources, to conduct any inquiry or audit, or to provide any other advice or report that may be appropriate in the circumstances; and

(g) such other functions assigned to the board by the Minister or by or under this or any other Act.

(2) To avoid doubt, a regional NRM board may act with respect to a particular matter despite the fact that the matter may not fall within the scope of its regional NRM plan.

(3) However, if a regional NRM board acts with respect to a particular matter in the circumstances described in subsection (2), the board must furnish a report on the
matter to the Natural Resources Committee of the Parliament (unless the matter is not, in the opinion of the board, significant).

(4) In performing its functions, a regional NRM board should (as far as is reasonably practicable) seek to work collaboratively with—
(a) the other regional NRM boards whose regions adjoin the region of the board; and
(b) other State agencies, agencies of the Commonwealth, and agencies of the other States and Territories, that have functions that are relevant to those of the board; and
(c) NRM groups with areas that fall (wholly or partially) within the region of the board; and
(d) the constituent councils for the region, and other councils as may be relevant; and
(e) relevant industry, environment and community groups and organisations; and
(f) persons who own or occupy land within the region of the board (insofar as may be relevant).

(5) A regional NRM board will, with respect to the performance of its functions, report to the Minister.

(6) If the Minister assigns a function to a regional NRM board under subsection (1)—
(a) the Minister must furnish a report on the matter to the Natural Resources Committee of the Parliament; and
(b) the regional NRM board must cause a statement of the fact of the assignment to be published in its next annual report.

4.5 The Board’s Region

The South Australian Murray-Darling Basin Natural Resources Management Board (the SA MDB NRM Board) is responsible for one of eight natural resources management regions in South Australia. The SA MDB NRM region supports a population of approximately 126,000 people and extends over more than 5.6 million hectares, from the Victorian and New South Wales borders to the catchment boundary along the Mount Lofty Ranges, to the Murray Mouth, and up to 14 kilometres into the Southern Ocean. This is one of South Australia’s most ecologically diverse and agriculturally productive regions. It supports a wide range of flora, fauna, natural environments and human activities. The proper management of these natural resources will maintain a capable and prosperous South Australia.

The Region’s ecological areas

The region can be divided into six distinct ecological units and bioregions, as detailed below.
River Corridor
From the border of South Australia and Victoria to Overland Corner, the River meanders through a floodplain some 5–10 km wide that includes a complex pattern of anabranches and billabongs. Beyond Overland Corner, the River has incised a narrow gorge through limestone where geological structure largely determines its course. The ecology of the River Corridor is unique in the region, given the fluvial (riparian) processes involved in its formation. Aeolian (wind) processes dominate the rest of the region.

Coorong and Lower Lakes
The Coorong and Lower Lakes area features low-lying alluvial and coastal plains overlain by low sand ridges, with some outwash fans and isolated remnant hills along the western edge, and calccrete-capped old coastal dunes, up to 40 m high adjacent to the Coorong. This area consists of sedgelands, grasslands and low shrublands providing a wide range of habitats and is of international importance for migratory birds.

Murray Mallee and Murray Plains
Murray Mallee and Murray Plains includes the majority of the region’s agricultural area and consists predominantly of low rainfall mallee and shrubland communities.

Eastern Mount Lofty Ranges
The Eastern Mount Lofty Ranges supports stringy-bark forest, woodland and grassy woodland communities. A number of small tributary catchments drain the Ranges, joining either the River Murray or Lake Alexandrina.

South Olary Plains
The South Olary Plains, a pastoral region of low rainfall, extends north of the River Murray and west of the border with New South Wales. It features mallee, woodlands and chenopod shrubland vegetation, the majority of which remains uncleared.

A number of species in this region are listed as threatened due to over-grazing by domestic stock, goats, rabbits and kangaroos.

In addition to the terrestrial systems above, the Coorong bioregion is also an important ecological system within the SA MDB NRM region. The Coorong marine habitats, including complex near-shore reef systems and the marine organisms they support, are highly diverse. Species of conservation significance include the Leafy Sea Dragon, as well as migrating Southern Right and Humpback Whales. The bioregion also supports a number of marine species which are of importance to commercial and recreational fisheries.

More about the Region
The region is in the rainshadow of the Mount Lofty Ranges, resulting in a marked reduction in rainfall compared to the country to the west. Even over short distances, a large reduction in rainfall can occur. Annual rainfall ranges from an unreliable 235 mm near Yunta, just beyond the northern extremity of the region, to 387 mm at Lameroo, near the south-eastern corner of the region, to 768 mm at Mount Barker near the western edge of the region.

For a map of the region see Appendix 7.
4.6 Membership

Section 25 of the Natural Resources Management Act provides for the appointment of the SA Murray Darling Basin Natural Resources Management Board.

The Board comprises of nine members who are appointed by the Governor on the recommendation of the Minister. Each of the appointed members of the Board is a person who, in the opinion of the Minister, meets the standards stipulated by section 25 (4) of the Natural Resources Management Act for the appointment of members:

(4) For the purposes of subsection (1), the Minister must (as far as is reasonably practicable in the circumstances)—
   (a) give consideration to nominating persons so as to provide a range of knowledge, skills and experience across the following areas:
      (i) community affairs at the regional level;
      (ii) primary production or pastoral land management;
      (iii) soil conservation and land management;
      (iv) conservation and biodiversity management;
      (v) water resources management;
      (vi) business administration;
      (vii) local government or local government administration;
      (viii) urban or regional planning;
      (ix) Aboriginal interest in the land and water, and Aboriginal heritage;
      (x) pest animal and plant control;
      (xi) natural and social science;
      (xii) if relevant—coast, estuarine and marine management, fisheries or aquaculture; and
   (b) nominate persons who are able to demonstrate an interest in ensuring the sustainable use and conservation of natural resources and an awareness of natural resource issues across the relevant region; and
   (c) ensure
      (i) that a majority of the members of the board reside within the relevant region; and
      (ii) that a majority of the members of the board are engaged in an activity related to the management of land.

(5) In addition, the Minister must, before finalising his or her nominations for the purposes of this section, consult with the designated Ministers.

(6) At least one member of a regional NRM board must be a woman and at least 1 member must be a man.

(7) At least one member of a regional NRM board must be a member or officer of a council at the time of his or her appointment, unless—
   (a) the board's region does not include any part of the area of a council; or
   (b) the Minister cannot, after taking reasonable steps, find a member or officer
of a council who—
  (i) in the opinion of the Minister, is suitable to be appointed as a
      member of the board; and
  (ii) is willing and available to be a member of the board.

(8) The Governor must appoint a suitable member of a regional NRM board to be the
    Presiding Member of the board.

(9) The Governor may appoint a suitable person to be the deputy of a member of a
    regional NRM board.

(10) A deputy may act as a member of a regional NRM board during any period of
     absence of the member in relation to whom the deputy has been appointed.

(11) The Minister may, by instrument in writing, authorise a person or persons to attend
     any meeting of a regional NRM board in order to represent the interests of the
     Commonwealth, the State or local government.

The membership of the Board during 2009-10 was:

In addition to these representatives, the Board has State Government Agency staff and a
representative from Local Government.

These members are:

**Government members**
- Gerry Davies (Primary Industries and Resources)
- Merridie Martin (Environment and Heritage)
- Mike Smith (Water, Land and Biodiversity Conservation) – ceased appointment September 2009
- Rachel Barratt (Water, Land and Biodiversity Conservation) – appointed October 2009
- Peter Scott (Environment Protection Authority)
- Rodney Ralph (Local Government Association)

4.7 Board Meetings
A total of 11 general Board meetings were held during the 2009-10 financial year. No special Board meetings were held during the financial year.

4.8 Relationships with other Agencies

The South Australian Murray-Darling Basin Natural Resources Management Board under the auspices of the Natural Resources Management Act 2004 works closely with the Department of Water, Land and Biodiversity Conservation (DWLBC), Department of Environment and Heritage (DEH), SA Water and Primary Industry and Resources SA (PIRSA) to improve sustainability and achieve improved health and productivity of our natural resources. The Board also works closely with the NRM Council, the other regional NRM Boards, regional organisations, and community and non-Government organisations to develop the Regional NRM Plan and implement its works programs.

The Board also has a strong relationship with the Australian Government to ensure national priorities are addressed with planning processes and through investments.

The Board has signed Service Level Agreements with Government Agencies to assist in the delivery of its programs and injury management services.
4.9 Governance Arrangements

No new governance policies or arrangements were developed in the reporting period but all the Board’s current policies have been or are in the process of being fully reviewed to ensure compliance with current legislation, Agreements and Awards. The Board’s Finance Committee assists the Board through the oversight of these policies and procedures to ensure that the Board meets its statutory obligations, particularly in respect of audit and financial management. The Finance Committee has reviewed all the current Board level policies including delegations and procurement procedures. A risk management policy is being finalised.

4.10 Delegated Functions and Powers

Section 36 of the *Natural Resources Management Act 2004* allows the Board to delegate functions or powers of the Board to members of the Board, Committees of the Board, Council, members of staff, NRM Groups or other persons or bodies. The Board has delegated the functions and powers of the below Sections of the Act to the General Manager of the Board, with the authority to further delegate to members of staff or NRM Groups:

The delegations are relative to the following Sections of the Act:

- S31 Special powers to carry out works
- S34 (3);(4);(6) Appoint staff
- S67 Appoint Regional Authorised officers
- S122 Special provisions relating to land
- S123 Implement Action Plan
- S127 (3)(d);(5)(a)-(h) Water Affecting Activities
- S130 Notice to rectify unauthorised activity
- S131 Notice to maintain watercourse or lake
- S179 Offence to release animals or plants (Recovery of costs for capture/collection)
- S182 Owner of land to take action to destroy or control animals or plants (Power to provide exemptions)
- S185 NRM authorities may recover certain costs from owners of land adjoining road reserves (Invoicing only)
- S188 Permits
- S192 Protection of certain vegetation and habitats
- S193 Protections orders
- S195 Reparation orders
- S199 Registration
- S230 Recovery of technical costs associated with contraventions

4.11 Board Committees

Under the Act, the Board is able to create committees to provide advice in specific areas of expertise or NRM activity. The following Committees operated in 2009-10:

- Finance Committee
- Executive Committee
- Regional Integration Committee
- Communications Committee
• Policy Committee
• Investment and Evaluation Committee
• River Murray Advisory Committee

Membership of these Committees is provided in Appendix 2.

To facilitate local input into the development of Water Allocations Plans, address local government issues, water resource management and the Living Murray Program management, a number of Planning/Advisory Committees and Groups are established. Those operational during this year are:

• Mallee Water Resources Committee
• Marne Saunders Water Resources Committee
• Eastern Mt Lofty Ranges Water Resources Committee (2 Committees)
• Angas Bremer Water Resources Committee
• Riverland, Rangelands, Ranges to River, Mallee and Coorong Local Government Natural Resources Advisory Committees (4 Committees)
• River Murray Water Allocation Planning (Upper, Mid and Lower Murray) Advisory Committee (3 Committees)
• Chowilla Community Consultative Committee
• Lower Lakes, Murray Mouth and Coorong Icon Site Consultative Committee.

4.12 NRM Groups
The Board supports four community based NRM Groups in the Riverland, Rangelands, Ranges to River and Mallee and Coorong areas of the region. The Groups assist and support the Board in planning, land management, animal and pest plant control, water related issues, biodiversity protection and community engagement at the local level.

A report from each of the NRM Groups of their achievements is attached as Appendices 3 -6.

5. HUMAN RESOURCES

On 30 June 2010, the Board had 77 employees occupying 69.2 full-time equivalent positions of the 84.2 approved FTE positions. Information relating to the Board’s employees, leave management, workforce diversity, equal employment opportunities, customer service and occupational health and safety and injury management follows.
5.1 Organisational Structure

For the period ending 30 June 2010 the Board had a total number of 84.2 FTE approved positions as shown on the organisation chart below.

5.4 Equal Employment Opportunity programs

The gender balance of the Board is always taken into consideration when members are appointed. During the reporting period the Board staff consisted of 37 male and 40 female members.

The members of the Board are aware of and abide by their obligations under the State Equal Opportunity Act 1984. The Board endeavours to comply by:

- Promoting a work environment where everyone is treated with respect, fairness, equality and dignity
- Ensuring an environment free from discrimination, bullying and harassment
- Preventing discrimination, bullying and harassment in the workplace
- Ensuring management and staff are aware they may be liable for any unlawful act which occurs in the work area under their supervision
- Ensuring prompt, serious, sensitive, impartial and confidential investigations of complaints, enquiries and questions relating to discrimination, bullying and harassment
• Ensuring any person who feels they have just cause for a complaint is able to use the complaint procedure without fear of retribution or disadvantage

The Board support but currently does not engage any staff under the SA Government Youth Training Schemes and Trainee Employment Register, the SA Public Sector Aboriginal Recruitment and Development Strategy and Aboriginal Employment Register or Employment of People with Disabilities or the Disability Employment Register.

During 2009-10 the Board engaged two trainees under the following schemes:
  • Australian Apprenticeship Incentives Program (School based Training) under the Drought Apprenticeship Retention Program 2009-10
  • Statewide Group Training Scheme (IT Based Traineeship)

6.4 Fraud
During the 2009-10 financial year there were no instance of fraud detected in the Board.

6.5 Consultants
During the 2009-10 financial year there were no consultants employed by the Board

7. OTHER

7.1 Disability Action Plan
The Board does not have a specific Disability Plan, but wherever practicable the Board ensures that its services are accessible to people with disabilities.

Should an issue arise, the organisation is in a position to address a disability issue immediately and would implement measures to address the issue by either action or within its current policies and procedures.

*Promoting Independence – Disability Action Plans for South Australia* provides a framework of action for agencies to meet the requirements of the *Commonwealth Disability Discrimination Act 1992* and the *SA Equal Opportunity Act 1984*.

In performing its functions the Board:

- Ensures accessibility of their services to people with disabilities, both as a customer and employee
- Ensures information about their services and programs is inclusive of people with disabilities
- Delivers advice or services to people with disabilities with awareness and understanding of issues affecting people with disabilities
- Provides opportunities for consultation with people with disabilities in decision making processes regarding service delivery and in the implementation of complaints and grievance mechanisms
- The General Manager ensure that the Board has met the requirements of the Disability Discrimination Act and Equal Opportunities Act
- The Board is aware of the South Australian Strategic Plan target “to double the number of people with disabilities employed in the Public Sector by 2014”.

7.2 Asbestos management in government buildings

A review was finalised in May 2009 of all facilities leased or owned by the Board (16 sites including depots) to identify management issues, including whether asbestos was present. Some sites had a combination of finding from removing asbestos as soon as practical to no asbestos present or identified without further testing. The table below outlines the findings of this review.

### Annual Asbestos Management Report 2009-10

7.3 Urban Design Charter

The South Australian Government adopted the South Australian Urban Design Charter as a whole-of-government urban policy which was released in November 2004. The Urban Design Charter aims to promote the benefits of good urban design, embed the principles into government processes and record the South Australian Government’s commitment to good urban design. The South Australian Murray-Darling Basin NRM Board has not undertaken any activities relevant to the implementation of the Urban Design Charter during 2009-10.
7.4 Freedom of Information

It is the responsibility of the Board to ensure that it complies with the *Freedom of Information Act 1991*. The Board’s Administration Manager, Stephanie Weinert, is the designated and accredited Freedom of Information Officer.

There were no formal applications for information under the *Freedom of Information Act 1991* during 2009-10.

7.5 Energy Efficiency Action Plan

Performance against annual energy use targets is outlined below.

The Board will aim to achieve the government target of a 25% improvement on the base year by 2014.

<table>

7.6 Greening of Government Operations Framework

The Greening of Government Operations Framework (GoGO) Framework was approved by Cabinet in February 2006 to provide the implementation framework for South Australian Government agencies to progress greening programs.

GoGO Priority Area 1: energy management  
GoGO Priority Area 3: waste management  
GoGO Priority Area 5: travel and fleet management

The Board will endeavour to work closely with agencies to progress improvements in environmental performance in accordance with the key actions of its sustainability action plan. The Board has developed an implementation plan that will give effect to the action plan addressing energy management, green buildings, travel and fleet management, green procurement, human resource management and sustainability (Green Team Plan 2008-2014)

**ACTION PLAN GOALS:**

- **BIODIVERSITY:** *Improve biodiversity of office surrounds by 2014*
- **WASTE:** *Improve the reduction, re-use and recycling of office waste by 2014*
- **ENERGY:** *Increase carbon efficiency of offices by 20% by 2014*
Objective 3 in the South Australia’s Strategic Plan (Attaining Sustainability) contains a number of targets that focus on protecting our biodiversity, securing sustainable water and energy supplies, and minimising waste. SA MDB NRM Board progress toward these sustainability targets is included.

**Sustainability Highlights for 2009-2010**

**Vehicle Fuel Use:**

The Board has been able to demonstrate progress toward targets and savings. One significant reduction is shown in fuel use, where approximately 10% has been achieved over 3½ years (3% per year).
Office Power use:

All SA MDB NRM Board offices are being progressively moved toward 20% green energy as the electricity contracts fall due. Office energy efficiency is the first priority with individual office audits demonstrating the majority of offices recording reduced electricity use based on power consumption to the end of 2009. Of the ten offices, five offices recorded stable consumption; five offices marginally down and two offices increased power use.

Figure 1: Shows a 10% reduction over the 4 months March – end June 2009 -2010 comparisons

Figure 2: Power use / Staff numbers comparison shows that energy use equates well with staff numbers. Tailem Bend storage facility excluded as it has no staff.
7.7 Regional Impact Assessment Statements

The Board did not undertake any regional Impact Assessment Statements during the 2009-10 financial year.

7.8 Reconciliation Statement

The South Australian Murray-Darling Basin Natural Resources Management Board acknowledges the land on which it meets is the traditional lands for Aboriginal people and that it respects their spiritual relationship with their country. The Board also acknowledges the Ngarrindjeri, Ngargad, Meru, Ngadjuri, Peramangk, Danggali and Barkindji people as the custodians of the region and that their cultural and heritage beliefs are still as important to the living people today.

In fulfilling its functions, the South Australian Murray-Darling Basin Natural Resources Management Board is cognisant of the cultural and natural heritage of traditional owners and strives to achieve positive outcomes wherever these matters are concerned.

The Board had an indigenous representative, Mr Derek Walker as a member of its Board. Mr Walker’s term expired on 13 April 2010 and a replacement Board member will be appointed soon.

The Board also has engaged the indigenous community in projects and committees wherever possible.

Two indigenous facilitators for The Living Murray project were appointed to the region with one officer based in Adelaide and the other in Berri. The Board has funded an Aboriginal Partnerships Coordinator and two Aboriginal Project Officers to actively engage with aboriginal communities across the region.

7.9 Statement of Fact for Significant Ministerial Directives

No Ministerial Directives have been issued to the Board by the Minister in relation to Sections 24 and 30 of the Natural Resources Management Act.

7.10 Statement of Fact for Significant Functions Assigned by Minister

Under Section 6 of the Administrative Arrangements Act 1994 the ministerial functions and powers of the Minister for the Environment and Conservation in relation to the South Australian Murray-Darling Basin Natural Resources Management Board the following sections of the Natural Resources Management Act 2004 were conferred on the Minister for the River Murray on 27 January 2005.

- Sections 11; 23(2)(c); 23(3)(a); 23(4), (5), (6) and (7); 24(3); 25; 29; 30; 33; 34; 35; 36; 39; 40; 43; 44; 45; 46; 48; 49; 50; 53; 54; 58; 59; 61; 75; 78; 79; 80; 81; 82; 84; 88; 89; 171; 225; Schedule 1, Clauses 4 and 5; Schedule 4, Clause 54 (12) and (13).

There were no new significant functions assigned to the Board by the Minister in 2009-10.
8. ACKNOWLEDGEMENTS

The Board would like to thank the Minister for the River Murray, Hon Karlene Maywald MP and the Ministers for Environment and Conservation, Hon Jay Weatherill MP and Hon Paul Caica MP, and staff of the SA Department of Water, Land and Biodiversity Conservation, the staff of the SA Department for Environment and Heritage, SA Water Corporation, Primary Industries and Resources SA, Environment Protection Authority, Local Government and the community for the support and encouragement that it has received in 2009-10.

11. APPENDICES

11.1 APPENDIX 1: 2009-10 Audited Financial Reports and Statement

Our Ref: A10/358

29 October 2010

Mr W. Paterson
Presiding Member
South Australian Murray Darling Basin Natural Resources Management Board
PO Box 2343
MURRAY BRIDGE SA 5253

Dear Mr Paterson

The audit of the South Australian Murray Darling Basin Natural Resources Management Board for the year ended 30 June 2010

The audit of the accounts of the South Australian Murray Darling Basin Natural Resources Management Board (the Board) for the year ended 30 June 2010 has been completed.

The scope of the audit covered the principal areas of the financial operations of the Board and included the test review of systems and processes and internal controls and financial transactions.

The audit coverage and its conduct is directed to meeting statutory audit responsibilities under the Public Finance and Audit Act 1987 and also the requirements of Australian Auditing Standards.

In essence, two important outcomes result from the annual audit process, notably:

- The issue of the Independent Auditor’s Report (IAR) on the integrity of the agency’s financial statements.
- The issue during the year or at the time of financial statement preparation and audit or close thereto, audit management letter(s) advising of system, process and control matters and recommendations for improvement.

In this regard, returned herewith are the financial statements of the Board together with the IAR, which is unmodified.

In addition, an audit management letter will be forwarded shortly to the General Manager advising of any matters arising from the overall audit and any recommended control improvements, if applicable.

Finally, I would like to express my appreciation to the management and staff of the Board in providing assistance during the year to my officers in the conduct of the annual audit.

Yours sincerely

S O’Neill
AUDITOR-GENERAL

enc
INDEPENDENT AUDITOR’S REPORT

To the Members
South Australian Murray Darling Basin Natural Resources Management Board

As required by section 31 of the Public Finance and Audit Act 1987 and section 37(2) of the Natural Resources Management Act 2004, I have audited the accompanying financial statements of the South Australian Murray Darling Basin Natural Resources Management Board for the financial year ended 30 June 2010. The financial statements comprise:

- A Statement of Comprehensive Income
- A Statement of Financial Position
- A Statement of Changes in Equity
- A Statement of Cash Flows
- Disaggregated Disclosures - Expenses and Income
- Notes to and Forming Part of the Financial Statement, comprising a summary of significant accounting policies and other explanatory information
- A Certificate from the Presiding Member, the General Manager and Finance Manager of the South Australian Murray Darling Basin Natural Resources Management Board.

The responsibility of the Members of the South Australian Murray Darling Basin Natural Resources Management Board for the financial statements

The Members of the South Australian Murray Darling Basin Natural Resources Management Board are responsible for the preparation and the fair presentation of the financial statements in accordance with the Treasurer's Instructions promulgated under the provisions of the Public Finance and Audit Act 1987 and Australian Accounting Standards. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor’s responsibility

My responsibility is to express an opinion on the financial statements based on the audit. The audit was conducted in accordance with the requirements of the Public Finance and Audit Act 1987 and Australian Auditing Standards. The Auditing Standards require that the auditor complies with relevant ethical requirements relating to audit engagements and plans and performs the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the
accounting policies used and the reasonableness of accounting estimates made by the Members of the South Australian Murray Darling Basin Natural Resources Management Board, as well as the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my auditor’s opinion.

Auditor’s opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of the South Australian Murray Darling Basin Natural Resources Management Board as at 30 June 2010, its financial performance and its cash flows for the year then ended in accordance with the Treasurer’s Instructions promulgated under the provisions of the Public Finance and Audit Act 1987 and Australian Accounting Standards.

S O’Neill
AUDITOR-GENERAL

The Board has determined that assets and liabilities cannot be reliably attributed to individual Activities/Themes. Comparatives have not been provided as new programs have been implemented this financial year.
1 Objectives

1.1 Establishment of the Board

The South Australian Murray-Darling Basin Natural Resources Management Board (the Board) was established on 9 December 2004 pursuant to section 23 (1) of the Natural Resources Management Act 2004 (the NRM Act).

The Board operates under a Natural Resources Management Plan (NRM Plan) which was adopted by the Minister for the River Murray on 28 April 2009, for implementation on 1 July 2009. The NRM Plan contains a three-year Investment Plan which identifies strategies, management action targets and the Board’s investment themes as detailed in Note 3.

The Board serves the Government and the people of South Australia by achieving excellence in the provision of Natural Resources Management.

1.2 Objectives of the Board

The objectives of the Board as defined in the NRM Act are:

- to undertake an active role with respect to the management of natural resources within its region;
- to prepare a regional NRM plan in accordance with the NRM Act, to implement the plan and to keep the plan under review to ensure the objects of the NRM Act are being achieved;
- to promote public awareness and understanding of the importance of integrated and sustainable natural resources management within its region, to undertake or support educational activities with respect to natural resources management, and to provide mechanisms to increase the capacity of people to implement programmes or to take other steps to improve the management of natural resources;
- to provide advice with respect to the assessment of various activities or proposals referred to the Board under this or any other Act;
- to resolve any issues that may arise between the NRM groups that are relevant to the management of natural resources within its region;
- at the request of the Minister or the NRM Council, or of its own initiative, to provide advice on any matter relevant to the condition of natural resources within its region, or on the management of those resources, to conduct any inquiry or audit, or to provide any other advice or report that may be appropriate in the circumstances; and
- any other functions assigned to the Board by the Minister by or under this or any other Act.

2 Statement of significant accounting policies

2.1 Statement of compliance

The financial statements are general purpose financial statements. The accounts have been prepared in accordance with relevant Australian accounting standards and Treasurer’s Instructions and accounting policy statements promulgated under the provision of the Public Finance and Audit Act 1987.

Except for Australian Accounting Standard, AASB 2009-12, which the Board has early adopted, Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective have not been adopted by the Board for the reporting period ending 30 June 2010. The Board did not voluntarily change any of its accounting policies during 2009-10.

2.2 Basis of preparation

The preparation of the financial statements requires:

- the use of certain accounting estimates and requires management to exercise its judgement in the process of applying the Board’s accounting policies. Areas involving a higher degree of judgement or where assumptions and estimates are significant to the financial statements are outlined in the applicable notes;
- accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported; and
- compliance with accounting policy statements issued pursuant to section 41 of the Public Finance and Audit Act 1987. In the interest of public accountability and transparency the accounting policy statements require the following note disclosures, which have been included in this financial report.
South Australian Murray-Darling Basin Natural Resources Management Board

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

a) revenues, expenses, financial assets and liabilities where the counterparty/transaction is with an entity within the SA Government as at reporting date, classified according to their nature. A threshold of $100,000 for separate identification of these items applies;

b) staff whose normal remuneration is $100,000 or more (within $10,000 bandwidths) and the aggregate of the remuneration paid or payable or otherwise made available, directly or indirectly by the entity to those employees; and

c) board/committee member and remuneration information, where a board/committee member is entitled to receive income from membership other than a direct out-of-pocket reimbursement.

d) expenses incurred as a result of engaging consultants (as reported in the Statement of Comprehensive income).

The Board’s Statement of Comprehensive Income, Statement of Financial Position, and Statement of Changes in Equity have been prepared on an accrual basis and are in accordance with historical cost convention, except for certain assets that were valued in accordance with the valuation policy applicable.

The Statement of Cash Flows has been prepared on a cash basis.

The financial statements have been prepared based on a twelve month period and presented in Australian currency.

The accounting policies set out below have been applied in preparing the financial statements for the year ended 30 June 2010 and the comparative information presented.

2.3 Reporting entity
The Board was established on 9 December 2004 pursuant to section 23 (1) of the NRM Act. The Board operates under a Natural Resources Management Plan (NRM Plan) which was approved by the Minister for the River Murray in April 2000.

The Board is an administrative unit acting on behalf of the Crown.

The Board’s financial statements include the use of income, expenses, assets and liabilities controlled or incurred by the Board in its own right.

NRM Groups
The function of the NRM Groups is defined by the NRM Act 2004, (section 52) and the NRM Group Charter. The NRM Act provides that the NRM Groups are subject to the direction of the Board (section 72(3)(b)).

In accordance with a direction issued by the Board under the NRM Groups Charter, the NRM Groups do not have the power to enter into contracts or procure goods or services in their own right; rather they make recommendations for projects undertaken by the Board. The Board has ensured NRM Group projects undertaken by the Board and the related financial information has been incorporated in the accounts and financial statements of the Board for financial reporting purposes.

2.4 Comparative information
The presentation and classification of items in the financial statements are consistent with prior periods except where specific accounting standards and/or accounting policy statements has required a change.

Where presentation or classification of items in the financial statements have been amended, comparative figures have been adjusted to conform to changes in presentation or classification in these financial statements unless impracticable.

2.5 Rounding
All amounts in the financial statements and accompanying notes have been rounded to the nearest thousand dollars ($'000).

2.6 Taxation
The Board is not subject to income tax. The Board is liable for payroll tax, fringe benefits tax, goods and services tax (GST), emergency services levy and local government rates. Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable; and

- receivables and payables, which are stated with the amount of GST included.
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

The net amount of GST recoverable from, or payable to, the Australian Taxation Office is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the Australian Taxation Office is classified as part of operating cash flows.

Unrecognised contractual commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to the Australian Taxation Office. If GST is not payable to, or recoverable from the Australian Taxation Office, the commitments and contingencies are disclosed on a gross basis.

2.7 Events after the reporting period

Adjustments are made to amounts recognised in the financial statements, where an event occurs after 30 June and before the date the financial statements are authorised for issue, where those events provides information about conditions that existed at 30 June.

Note disclosure is made about events between 30 June and the date the financial statements are authorised for issue where the events relate to a condition which arose after 30 June and which may have a material impact on the results of subsequent years.

2.8 Income

Income is recognised to the extent that it is probable that the flow of economic benefits to the Board will occur and can be reliably measured.

Income has been aggregated according to its nature and has not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

The notes accompanying the financial statements disclose income where the counterparty/transaction is with an entity within the SA Government as at the reporting date, classified according to their nature.

Transactions with SA Government entities below the threshold of $100,000 have been included with the non-government transactions, classified according to their nature.
The following are specific recognition criteria:

**Regional NRM and Water Levies**
Under the NRM Act the Board receives two forms of levies, the Regional NRM Levy and the NRM Water Levy.

The Regional NRM Levy is collected by constituent councils from ratepayers and is based on the value of rateable land. Councils can seek to recover any ongoing costs associated with the collection of the levy.

The Water based Levy is collected by the Department for Water, Land and Biodiversity Conservation who collects from licensed water users. This Levy is based on water allocated and water used.

Contributions from constituent councils collected from ratepayers are recognised as income following determination of the share of each council by the Minister and publications of those amounts in the Government Gazette. Contributions are required to be paid on a quarterly basis to the Board. Levies are recognised as revenue when the Board obtains control of the funding. Control over levies is obtained on receipt.

**Natural Resources Management Fund**
The Natural Resources Management Fund (NRM Fund) was established pursuant to subsection 117(1) of the NRM Act. The Minister for Environment and Conservation administers the NRM Fund and may apply any part of the NRM Fund in making payments to the Board. The Board receives the following Commonwealth and State Funding through this fund.

**Commonwealth Funding: Caring for Our Country**
The State and the Board entered into a Regional Proponent Agreement for the Implementation of the Commonwealth’s Caring for our Country initiative from 1 July 2008.

In order to ensure the continuity of regional base level funding from 1 July 2008 to 30 June 2013 this agreement was varied by both parties in January 2010 whilst a new multilateral National Partnership Agreement and a cross-jurisdictional implementation plan was finalised by the Commonwealth for the 2009-2013 regional base level funding.

The goal of Caring for our Country is an environment that is healthy, better protected, well managed, resilient and provides essential ecosystem services in a changing climate. Caring for our Country has six National Priority Areas for investment.

Under the Agreement to reflect the intent of the Commonwealth, the State and the Board work together as partners with the community and other stakeholders, in natural resource management for the Region. Pursuant to that commitment the Commonwealth agreed to fund programs undertaken by the Board.

**Grants received**
Grants received predominately represent contributions from State government agencies, various Commonwealth government agencies and the Murray-Darling Basin Authority (formerly the Murray-Darling Basin Commission) toward various activities of the Board.

To complement the Commonwealth’s Caring for Our Country initiative, the Government of South Australia implemented the State NRM Program. Through a Proponent Agreement the State agreed to fund projects to be undertaken by the Board through the Regional NRM Plan that meet the priority areas for investment at achieving the goals of the State NRM Plan. The Proponent Agreement covers the arrangements for the implementation of the State NRM Program 2006-2010 to 2012-2013, with funding for any projects post 2006-2010 subject to Ministerial approval.

Grants received are recognised as an asset and income when the Board obtains control of the grant or obtains the right to receive the grant and the income recognition criteria are met (ie the amount can be reliably measured and the flow of resources is probable).
Commonwealth and Grant Contributions received
Contributions are recognised as an asset and income when the Board obtains control of the contributions or obtains the right to receive the contributions and the income recognition criteria are met (i.e. the amount can be reliably measured and the flow of resources is probable).
Generally, the Board has obtained control or the right to receive for:

- Contributions with unconditional stipulations - this will be when the agreement becomes enforceable if the earlier of when the receiving entity has formally been advised that the contribution (e.g. grant application) has been approved; agreement/contract is executed; and/or the contribution is received.
- Contributions with conditional stipulations - this will be when the enforceable stipulations specified in the agreement occur or are satisfied; that is income would be recognised for contributions received or receivable under the agreement.

All contributions received by the Board have been contributions with unconditional stipulations attached and have been recognised as an asset and income upon receipt.

Other income
Other income includes revenue generated through contracting of animal and plant control services conducted on Crown or private land and Payroll Tax refunds. All income relates to the operating activities of the Board. Other income is recognised when the service has been performed.

Interest income
Interest income is recognised when earned.

Net gain on sale of non-current assets
Income from disposal of non-current assets is recognised when the control of the asset has passed to the buyer and determined by comparing proceeds with carrying amount.

2.9 Expenses
Expenses are recognised to the extent that it is probable that the flow of economic benefits from the Board will occur and can be reliably measured.

Expenses have been aggregated according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

The notes accompanying the financial statements disclose expenses where the counterparty/transaction is with an entity within the SA Government as at the reporting date, classified according to their nature.

Transactions with SA Government entities below the threshold of $100,000 have been included with the non-government transactions, classified according to their nature.

The following are specific recognition criteria:

Staff benefits expenses
Staff benefit expenses includes all cost related to employment including wages and salaries, non-monetary benefits and leave entitlements. These are recognised when incurred.

Superannuation
The amount charged to the Statement of Comprehensive Income represents the contributions made by the Board to the superannuation plan in respect of current services of current Board staff. The Department of Treasury and Finance centrally recognises the superannuation liability in the whole of government financial statements. In addition where staff belong to the Local Government Superannuation Scheme the liability is held with that Fund.

Depreciation
All non-current assets, having a limited useful life, are systematically depreciated over their useful lives in a manner that reflects the consumption of their service potential.

Assets’ residual values and useful lives are periodically reviewed and adjusted if appropriate.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the time period or method, as appropriate, which is a change in accounting estimate.

Land is not depreciated.

Depreciation is calculated on a straight line basis over the estimated useful life of the following classes of
South Australian Murray-Darling Basin Natural Resources Management Board

Grants and Subsidies
The Board provided financial assistance to local government, State Government agencies, community groups and private bodies during the year. Funds are paid by way of grants and all recipients are required to comply with conditions relevant to each grant. The details of amounts provided, organisations receiving grants and the purpose for each grant are shown in the Annual Report, as required under section 42 of the NRM Act.

For contributions payable, the contribution will be recognised as a liability and expense when the entity has a present obligation to pay the contribution and the expense recognition criteria are met.

All contributions paid by the Board have been contributions with unconditional stipulations attached.

Borrowing costs
All borrowing costs are recognised as expenses.

2.10 Current and non-current classification
Assets and liabilities are characterised as either current or non-current in nature. Assets and liabilities that are sold, consumed or realised as part of the normal operating cycle even when they are not expected to be realised within twelve months after the reporting date have been classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

Where asset and liability line items combine amounts expected to be realised within twelve months and more than twelve months, the Board has separately disclosed the amounts expected to be recovered or settled after more than twelve months.

2.11 Assets
Assets have been classified according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

Where an asset line item combines amounts expected to be settled within twelve months and more than twelve months, the Board has separately disclosed the amounts expected to be recovered after more than twelve months.

The notes accompanying the financial statements disclose financial assets where the counterparty/transaction is with an entity within the SA Government at the reporting date, classified according to their nature.

Transactions with SA Government entities below the threshold of $100,000 have been included with the non-government transactions, classified according to their nature.

Cash and cash equivalents
Cash and cash equivalents in the Statement of Financial Position include cash at bank and on hand.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Cash is measured at nominal value.

Receivables
Receivables include amounts receivable from goods and services, GST input tax credits recoverable, prepayments and other accruals.

Receivables arise in the normal course of selling goods and services to other government agencies and to the public. Receivables are generally settled within 30 days after the issue of an invoice or the goods/services have been provided under a contractual arrangement. Collectability of receivables is reviewed on an ongoing basis.

Accrued revenue arises when goods and services have been provided but no invoice has been raised by the Board at the reporting date.

**Non-current asset acquisition and recognition**

Non-current assets are initially recorded at cost or at the value of any liabilities assumed, plus any incidental cost involved with the acquisition. Non-current assets are subsequently measured at fair value less accumulated depreciation.

The Statement of Financial Position includes Property, Plant and Equipment controlled by the Board.

Where assets are acquired at no value, or minimal value, they are recorded at fair value in the Statement of Financial Position. However, if the assets are acquired at no or nominal value as part of a restructure of administrative arrangements then the assets are recognised at book value in the amount recorded by the transferor public authority immediately prior to the restructure.

All non-current tangible assets with a value equal to or in excess of $5,000 are capitalised. Previously recognised assets with a carrying value of $340,000 were written off during the year when the capitalisation threshold was increased from $1,000 to $5,000.

**Revaluation of non-current assets**

All non-current tangible assets are valued at written down current cost (a proxy for fair value); and revaluation of non-current assets or group of assets is only performed when its fair value at the time of acquisition is greater than $1 million and estimated useful life is greater than three years. As the Board does not hold assets that meet this criteria, assets have not been revalued.

**Impairment**

All non-current tangible and intangible assets are tested for indication of impairment at each reporting date. Where there is an indication of impairment, the recoverable amount is estimated. An amount by which the asset's carrying amount exceeds the recoverable amount is recorded as an impairment loss.

### 2.12 Liabilities

Liabilities have been classified according to their nature and have not been offset unless required or permitted by a specific accounting standard, or where offsetting reflects the substance of the transaction or other event.

Where a liability line item combines amounts expected to be settled within twelve months and more than twelve months, the Board has separately disclosed the amounts expected to be settled after more than twelve months.

The notes accompanying the financial statements disclose financial liabilities where the counterparty/transaction is with an entity within the SA Government as at the reporting date, classified according to their nature.

Transactions with SA Government entities below the threshold of $100,000 have been included with the non-government transactions, classified according to their nature.

**Payables**

Payables include creditors, accrued expenses and employment on-costs.

Creditors represent the amounts owing for goods and services received prior to the end of the reporting period that are unpaid at the end of the reporting period. Creditors include all unpaid invoices received relating to the normal operations of the Board.

Accrued expenses represent goods and services provided by other parties during the period that are unpaid at the end of the reporting period and where an invoice has not been received.

All payables are measured at their nominal amount, are unsecured and are normally settled within 30 days from the date of the invoice or date the invoice is first received.
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

Staff benefit on-costs include payroll tax, WorkCover and superannuation contributions in respect to outstanding liabilities for salaries and wages, long service leave and annual leave. The Board makes contributions to State Government and externally managed superannuation schemes. These contributions are treated as an expense when they occur. There is no liability for payments to beneficiaries as they have been assured by the respective superannuation schemes. The only liability outstanding at reporting date relates to any contributions due but not yet paid to the South Australian Superannuation Board and the Local Government Superannuation Board.

Leases
The Board has no finance leases.

The Board entered into operating lease agreements in relation to vehicles, office premises and office equipment whereby the lessees effectively retain all of the risks and benefits incidental to ownership of the property held under the operating leases. Refer note 20.1.

Lease payments are included as expenditure in equal instalments over the accounting periods covered by the lease terms. Operating lease payments are recognised as an expense in the Statement of Comprehensive Income on a straight-line basis over the lease term. The straight-line basis is representative of the pattern of benefits derived from the leased assets.

Staff benefits
These benefits accrue for staff as a result of services provided up to the reporting date that remain unpaid. Long-term staff benefits are measured at present value and short-term staff benefits are measured at nominal amounts.

Wages, salaries, annual leave and sick leave
The liability for salary and wages are measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

The annual leave liability is expected to be payable within twelve months and is measured at the undiscounted amount expected to be paid. In the unusual event where salary and wages and annual leave are payable later than 12 months, the liability will be measured at present value.

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by staff estimated to be less than the annual entitlement for sick leave.

Long service leave
The liability for long service leave is recognised after staff have completed 6.5 years of service. An actuarial assessment of long service leave undertaken by the Department of Treasury and Finance based on a significant sample of employees throughout the South Australian public sector determined that the liability measured using the short hand method was not materially different from the liability measured using the present value of expected future payments. This calculation is consistent with the Board’s experience of staff retention and leave taken.

Workers Compensation
The Board is registered with Work Cover as an exempt employer and has entered a service level agreement with the Department of Premier and Cabinet to provide insurance cover for work caused injuries.

A provision is raised to reflect the liability for any outstanding (unsettled) workers compensation claims for lump sum payments, adjusted for potential recoveries from negligent third parties. The provision is based on an actuarial assessment performed for the Public Sector Workforce Relations division of the Department of Premier and Cabinet.

These figures reflect an apportionment of the whole-of-government estimate of workers compensation liability, according to the Board’s experience of claim numbers and payments. The whole-of-government estimate can be found in a report prepared by Taylor Fry Pty Ltd, consulting actuaries, and submitted to the Public Sector Workforce Relations division.

2.13 Unrecognised contractual commitments and contingent assets and liabilities

Commitments include operating, capital and outsourcing arrangements arising from contractual or statutory sources and are disclosed at their nominal value.

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of a note and, if quantifiable, are measured at nominal value.
3 Activities of the Board

In achieving its objectives, the Board provides a range of services classified into the following Activities:

Activity 1: People

The People program recognises the significant role that people play in natural resources management outcomes. This program has a strong focus on raising the awareness of the communities within the Region and then engaging those people by building their understanding and involvement in the natural resources management projects implemented.

The program also has a specific focus on engaging the Region’s Aboriginal populations in NRM. This program aims to ensure the continued use, support and reinvigoration of traditional knowledge to underpin the natural resource outcomes for the Region.

Activity 2: Water

The Water program is focused on three groups of strategies:

- sustainably managing all water resources
- improving water quality
- achieving environmental water requirements.

Water resource assessment and water allocation planning are key elements of the program and are a statutory obligation of the Board. Working with the irrigation community ensures that water is used sustainably throughout the Region. The Board also invests in sustainable water management through the development and implementation of land and water management plans.

Activity 3: Biodiversity

The Biodiversity program contributes to the Region-wide programs that focus on protecting, improving and increasing the area of natural ecosystems in the Region. The Board facilitates community groups to undertake on-ground works in priority areas. The Board’s role in this program is to provide technical support for groups implementing projects and to build the understanding and involvement of the wider community in biodiversity activities.

The Board also plays a role in facilitating actions related to managing aquatic threatened species.

Protecting and managing priority wetlands and floodplains is a feature of this program. The Board works with key local community groups to develop wetland and floodplain management plans, implement on-ground works and to monitor wetland and floodplain health.

The Board works closely with the community and the Department for Environment and Heritage in implementing the Biodiversity program.

Activity 4: Land

The Land program is focused on working with industry, government and farmer groups to improve soil and land condition to increase productivity capacity and reduce the impacts of land degradation processes.

The Land program focuses on rain-fed production systems with the management of irrigated land falling under the Water Asset. The Board’s statutory obligation to undertake pest plant and animal control activities is contained within the Land program.

Activity 5: Atmosphere

The Atmosphere program focuses on raising awareness of the issue of climate change and the potential impacts on the Region. The Board promotes renewable energy and its uptake within the Region. The Board also focuses on improving its own energy efficiency and emissions through improvements in its buildings and vehicle fleet.
Activity 6: Monitoring
Monitoring, evaluation, reporting and improvement (MERI) activities are fundamental to NRM. Implementing the regional NRM plan requires a MERI Plan that structures actions to provide accurate, cost-effective and timely performance data to inform our decisions. Implementation of the MERI Plan ensures that we learn, enhance understanding, demonstrate accountability and continuously improve our actions to achieve NRM outcomes.

Activity 7: Coastal and Estuarine Environment
Activities aim to maintain and improve the capacity of the River Murray discharge to the sea to keep the Mouth open so that oxygenated sea water can flow into the Coorong to improve its health; to restore, maintain and enhance biodiversity and priority ecosystems; to improve water quality for economic, social and environmental purposes and to provide water for environmental needs.

Activity 8: River Murray Environmental Manager Unit
Activities include the management and implementation of environmental flow strategies and co-ordinated wetland and floodplain management. The disaggregated disclosures schedule presents expenses and income information attributable to each of the activities as reflected in the Board’s NRM Plan for the year ended 30 June 2010.
4. Grants and Subsidies

<td>-</td>
<td>1</td>
</tr>
<tr>
<td>Total number of staff</td>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>

The table includes all staff who received remuneration of $100,000 or more during the year. Remuneration of staff reflects all costs of employment including salaries and wages, superannuation contributions, fringe benefits tax, vehicle lease costs, any other salary sacrifice benefits and pay adjustments in relation to executive salary increases from previous years. The total remuneration received or receivable by these staff members for the year was $417,000 ($411,000).

No other services were provided by the Auditor - General’s Department.

11. Regional NRM and Water Levies

Regional NRM and Water Levies received/ receivable from entities external to the SA Government:

- Regional NRM Levy collected through Councils: $1,086, 905
- Water Levy collected through Department for Water Land & Biodiversity Conservation: $4,454, 2,436

Total Regional NRM and Water Levies: $5,540, 3,341

12. Caring for Our Country

Caring for Our Country - Regional Component made up of the following programs:

- Coastal Environment & Critical Aquatic Habitats Program: $281, 1,653
- Biodiversity and Natural Iconic Program: $287, 1,348
- Community Skills, Knowledge and Engagement Program: $468, 1,163
- Projecting Terrestrial Wold Habitats in the SAMDIS: $1,364 -
- Restoring Aquatic Habitats in the SAMDIS: $666 -
- Increasing Community Engagement and Participation: $416 -
- Aboriginal Partnership Project: $461 -
- Protecting the Canning, Lower Lakes & Murray Mouth NARNEAN: $241 -
- Improving Land Management in the SAMDIS: $596 -
- Engaging Farming Groups in Improved NRM: $144 -

Total Caring for Our Country: $5,787, 4,064

The Commonwealth revenue foregone which specify that the funding must be spent by June 2013. Revenue was recognized upon receipt of funds as the probability of repayment to the Commonwealth Government is unlikely.

13. Grants Received

Commonwealth Funding

- National Action Plan for Biodiversity & Water Quality (Investment Strategy): $967
- Natural Heritage Trust: $290
- National Landcare: $220
- Other: $824

Total Commonwealth Funding: $1,397

Grants received from SA Government entitites:

- Murray-Darling Basin Commission: $488
- Murray-Darling Basin Authority: $486, 2,869
- Department of Water, Land & Biodiversity Conservation: $905, 1,925
- Department for Environment & Heritage: $1,731 -
- Other: $783 -

Total Grants - SA Government entitites: $5,392, 4,673

Grants received/receivable from entities external to the SA Government:

- Murray-Darling Basin Commission: $2,010
- Murray-Darling Basin Authority: $2,814, 6,673
- Other: $327, 517

Total Grants - Non SA Government Grants: $5,831, 8,203

Total Grants Received: $5,758, 14,352

14. Cash and Cash Equivalents

- Bank Balance and cash on hand: $1,939, 2,831
- Total Cash and Cash Equivalents: $1,939, 2,831

15. Receivables

Receivables: $6,312, 6,563
GST Receivable: $20, 141
Accrued Interest: $12, 13
Prepayments: $48, 118
Total Current Receivables: $6,865, 6,839

Government / Non Government Receivables

Receivables from SA Government entities:

Receivables: $1,870, 1,919
Total Receivables from SA Government entities: $1,870, 1,919

Receivables from Non SA Government entities:

Receivables: $4,652, 5,184
GST Receivables: $20, 141
Accrued Interest: $12, 13
Prepayments: $48, 118
Total Receivables from Non SA Government entities: $4,685, 5,430

Total Receivables: $6,855, 6,055
Interest rate and credit risk

Receivables are owed for all goods and services provided for which payment has not been received. Receivables are normally settled within 30 days. Receivables, prepayments and accrued revenues are non-interest bearing.

It is not anticipated that counterparties will fail to discharge their obligations. The carrying amount of receivables approximates fair value due to being receivable on demand. There is no concentration of credit risk.

a. Maturity analysis of receivables - please refer to Note 22.

b. Categorisation of financial instruments and risk exposure information - please refer to Table 22.1 in Note 22.

17. **Payables**

#### 17.1 Current:

- **Creditors**: 2,691,000 2,583,000
- **Accrued Expenses**: 167,783
- **Staff on-costs**: 78,81
- **Unearned Revenue**: 7,100
- **GST Payable**: 3,242,3,077

**Total current payables**: 2,964,3,077

#### 17.2 Non-Current:

- **Staff on-costs**: 88
- **Total non-current payables**: 88

**Total payables**: 2,964,3,077

---

**Government / Non Government Payables**

- **Payables to SA Government entities**: 285,634
- **Total payables to other SA Government entities**: 285,634

**Payables to non-SA Government entities**

- **Creditors**: 2,691,2,583
- **Accrued expenses**: 167,783
- **Staff on-costs**: 165,150
- **Unearned Revenue**: 7,100
- **GST Payable**: 7

**Total payables to non-SA Government entities**: 2,746,3,132

**Total payables**: 2,964,3,295

---

**Interest rate and credit risk**

Creditors and accounts are rated for all amounts owed to the Board (billed and un-billed) but unpaid. Creditors are normally settled within 30 days. Staff on-costs are settled when the respective staff benefit that they relate to is discharged. All payables are non-interest bearing. The carrying amount of payables represents fair value due to the amounts being payable on demand.

a. Maturity analysis of payables - Please refer to Note 22.
b. Categorisation of financial instruments and risk exposure information - please refer to Table 22.1 in Note 22.
### South Australian Murray-Darling Basin Natural Resources Management Board

<table>

</tr>
<tr>
<td><strong>Total non current staff benefits</strong></td>
<td>866</td>
</tr>
<tr>
<td><strong>Total staff benefits</strong></td>
<td>1,461</td>
</tr>
</tbody>
</table>

Staff benefit pay costs such as payroll tax and other similar on-costs, are recognised as liabilities and expenses when the staff benefits, to which they relate, are recognised. These staff benefit on-costs are disclosed as Payables in note 17. The total current and non-current liability (ie aggregate staff benefit plus related on-costs) for 2010 is $673,090 and $474,300 respectively.

As a result of an actuarial assessment performed by the Department of Treasury and Finance, the benchmark for the measurement of long service leave liability has changed from the 2009 benchmark 8.5 years to 6.5 years. The net financial effect of the changes in the current financial year is an increase in the long service liability of $100,000 and employee benefit expense by $110,000. The impact on future periods is immeasurable to estimate as the benchmark is calculated using a number of assumptions - in key assumption is the long-term discount rate. With current conditions, the long-term discount rate is experiencing significant movement.

#### 20. Unrecognized contractual commitments

##### 20.1 Operating Lease Commitments (excluding GST)

- Commitments in relation to operating leases contracted for at the reporting date but not recognised as liabilities are payable as follows:
  - Not later than one year: 427
  - Later than one year and not later than five years: 1,658
  - Longer than five years: 618

  **Total lease commitments:** 2,663

  Operating lease commitments comprise the following:

  The property leases which are non-cancelable. Rental is payable monthly with reviews indexed annually, alternating between market value and CPI indexing. Options exist to renew the leases at the end of the current term.

  The equipment leases which are non-cancelable. Lease payments are payable monthly and options exist to renew or cancel the leases at the end of the current term.

##### 20.2 Other commitments (excluding GST)

- Not later than one year: 6,187
- Longer than five years: 6,209

**Total other commitments:** 12,406

Several projects in the form of grants and contracts have been committed as at 30 June 2010. These projects are undertaken by Local Action Planning Groups, community groups and government agencies. The value of these projects is not reflected in the Statement of Comprehensive Income and Statement of Financial Position.

##### 20.3 Remuneration Commitments

Commitments for the payment of salaries and other remuneration under fixed-term employment contracts in existence at the reporting date but not recognised as liabilities are payable as follows:

- Within one year: 3,627
- Longer than one year and not later than five years: 4,138

**Total remuneration commitments:** 7,765

Amounts disclosed include commitments arising from executive and other staff contracts. The Board does not offer fixed term remuneration contracts greater than five years.
21. Contingent assets and liabilities
  The Board is not aware of any contingent assets or liabilities.

22. Financial Instruments

Interim Risk Exposures
Details of the significant accounting policies and methods accepted including the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised with respect to each class of financial asset, financial liability and equity instrument are disclosed in Note 2 Statement of Significant Accounting Policies.

<table>
<thead>
<tr>
<th>Category of financial instrument</th>

<td>30,000</td>
<td>30,000</td>
<td>30,000</td>
</tr>
</tbody>
</table>

The amount of receivables and payables stated above do not include those arising from statutory obligations, including levies, workers compensation liability, staff on-costs, and GST. They are carried at cost.

Credit Risk
Credit risk arises when there is the possibility of the Board’s debts defaulting on their contractual obligations resulting in financial loss to the Board. The Board measures credit risk on a fair value basis and monitors risk as a regular basis. The Board has minimal concentration of credit risk.

Provisions for impairment of financial assets is calculated on past experience and current and expected changes in client credit rating. The Board does not hold any collateral as security to any of its financial assets. At reporting date, there is no evidence to indicate that any of the financial assets are impaired.

The following table discloses the aging of financial assets.

<table>
<thead>
<tr>
<th></th>
<th>Overdue for &lt; 30 days $’000</th>
<th>Overdue for 30 - 60 days $’000</th>

<tr>
<td>2009</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The amount of receivables stated above do not include those arising from statutory obligations, including levies. They are carried at cost.

Maturity Analysis
All financial assets and liabilities have a maturity less than 1 year with the exception of the non-current portion of borrowings which has a maturity of 1 - 5 years.

Liquidity Risk
The Board is funded principally from NRM Levy funds, State and Australian Government grants.

Market Risk
Market risk for the Board is primarily through interest rate risk. There is no exposure to foreign currency or other price risks.

Sensitivity Analysis
A sensitivity analysis has not been undertaken for the interest rate risk for the Board as it has been determined that the possible impact on profit and loss or total equity from fluctuations in interest rates is immaterial.
23. Remuneration of Board, Group and Committee Members and Related Party Disclosures

Remuneration of Board Members
Members that were entitled to receive remuneration for membership during the 2009/10 financial year were:

The Board
Mr William Paterson (Chairperson)
Ms Joanne Pfeiffer
Ms Frances Sima
Mr Erskie Waller
Mr Ron Keynes
Ms Anne Hatfield
Mr Colin Milburn
Ms Emily Jeeve
Ms Sheridan Als

Some members of the Board are also members of other Board Committees, and their remuneration is included in the table below.

Remuneration of Groups and Committee Members
Members that were entitled to receive remuneration for membership during the 2009/10 financial year were:

Groups

Mallee & Coorong NRM Group
- Alan Rippin (Chairperson)
- Damien Bishop
- Gordon Haycock
- Jennifer Nixon
- Stephen Murray
- Keith Scott
- Donna Haggard (Nuriootpa)

Rangihunda NRM Group
- David Loane (Chairperson)
- Christopher Neal
- Kevin Smith
- Jacoby Medley
- Jane Keil
- Joanne Geistad
- Julia Patten

Rampsa River NRM Group
- Wayne Munns (Chairperson) Resigned 9/4/10
- Malcolm Williams (Chairperson)

Remuneration of members reflects all costs of performing Board, Group and Committee member duties including sitting fees, superannuation contributions, fringe benefits tax and any other salary sacrifice arrangements. The total remuneration received or receivable by members was $301,652 ($357,660). The figures recorded in the Statement of Comprehensive Income also includes other Board, Group and Committee expenses such as travelling and meeting expenses.

* In accordance with Department of Primary and Cabinet Circular No. 015, government employees did not receive any remuneration for Board/Committee duties during the financial year. Some Non-Government employees chose not to receive remuneration.

Unless otherwise disclosed, transactions between members are on conditions no more favourable than those that is is reasonable to expect the entity would have adopted if dealing with the related party at arm's length in the same circumstances.

Related Party Disclosures
During the year transactions were entered into where members had either a direct or indirect pecuniary interest. Payments made are listed below:

CERTIFICATION OF THE FINANCIAL STATEMENTS

We certify that the attached general purpose financial statements for the South Australian Murray-Darling Basin Natural Resources Management Board:

- comply with relevant Treasurer’s Instructions issued under section 41 of the Public Finance and Audit Act 1987, and relevant Australian Accounting Standards;
- are in accordance with the accounts and records of the Board; and
- present a true and fair view of the financial position of the Board as at 30 June 2010 and the results of its operation and cash flows for the financial year.

We certify that the internal controls employed by the Board for the financial year over its financial reporting and its preparation of the general purpose financial statements have been effective throughout the reporting period.

11.3 APPENDIX 3: RIVERLAND NRM GROUP ANNUAL REPORT

RIVERLAND
NATURAL RESOURCES MANAGEMENT
GROUP

ANNUAL REPORT

1 July 2000 to 30 June 2010
Mr Bill Paterson  
Presiding Member  
SA Murray-Darling Basin Natural Resources Management Board  
PO Box 2343  
MURRAY BRIDGE  SA  5253

6 October 2010

Dear Mr Paterson

In accordance with the requirements of the Public Sector Act 2009 and section 59 of the Natural Resources Management Act 2004, I have pleasure in presenting the annual report of the Riverland Natural Resources Management Group for the year ended 30 June 2010.

Ken Stokes  
Presiding Member  
Riverland Natural Resources Management Group
NRM GROUP MATTERS CONTAINED IN THE NRM BOARD’S REPORT

The following annual reporting requirements are not included in this report as they are reported in the SA Murray Darling Basin NRM Board’s Annual Report:

Plans and Objectives

- Links between the Board and the SA Strategic Plan
- Links between the Board and the State NRM Plan.
- Object of the Natural Resources Management Act
- Organisational Structure
- Management of Human Resources
- Employment Opportunity Programs
- Occupational, Health, Safety and Injury Management
- Account Payment Performance
- Fraud
- Reporting against the Carers Recognition Act
- Disability Action Plans
- Asbestos Management in Government Buildings
- Urban Design Charter
- Freedom of Information
- Whistleblowers Protection Act 1993
- Energy Efficiency Action Plan Report
- Greening of Government Operations Framework
- Regional Impact Assessment Statements
- Reconciliation Statement

OPERATIONS AND INITIATIVES

Significant Achievements and Initiatives:-

- A number of Group members attended the combined Board and Group forum at Meningie.
- Rainfall Charts for the 2010 calendar year were distributed at the 2009 Riverland Field Days with representatives of the Riverland NRM Group attending at the Board’s exhibition site.
- Worked with the Team Leader in developing the Riverland Operations Team Operations Plan
- The Group visited the Yatco Lagoon wetlands site and held its meeting at Moorook.
- The Group visited Dave & Anita Reilly’s Date Farm and held its meeting there.
- Group members along with staff and agency representatives participated in a flyover of the Chowilla floodplain.
- The Group adopted its Business Plan and circulated it to Irrigation Trusts, LAP Groups, Local Government and the NRM Board.
- Received presentations from the Berri Barmera LAP and the Renmark to the Border LAP.
- Received a presentation and update from the Lake Bonney Management Committee.
- Received an overview on the Pike Project.
ROLES, LEGISLATION AND STRUCTURE

The Riverland Natural Resources Management Group was established on 21 February 2006 under the auspices of the *Natural Resources Management Act 2004*. This report for the 2009-10 financial year fulfils the requirements of Section 57 of the Natural Resources Management Act.

ROLE OF THE GROUP

- The Board’s role is defined in the Natural Resources Management Act and includes:
  - Taking an active role in the management of natural resources within the region and providing advice on natural resource issues.
  - Contributing to the preparation of a regional natural resources management plan;
  - Implementing the Board’s three-year business plan
  - Promoting public awareness and understanding of the importance of integrated and sustainable NRM
  - Providing advice on the assessment of activities or proposals referred under legislation or on any matter relevant to the condition or management of natural resources; and
  - Undertaking and supporting educational activities and increasing community capacity to undertake sustainable natural resource management.

FUNCTIONS OF THE RIVERLAND NRM GROUP

Section 52 of the Natural Resources Management Act describes the functions of the Riverland Natural Resources Management Group:

(1) The functions of a regional NRM Group are—

(a) to be actively involved in the development and implementation of any relevant regional NRM plan at the local level (to the extent specified or envisaged by that plan or specified by the relevant board or boards); and

(b) to develop, implement or participate in programs associated with natural resources management at the local level; and

(c) to promote public awareness of the importance of integrated and sustainable natural resources management within its area and to undertake or support educational initiatives with respect to natural resources management; and

(d) to provide advice to regional NRM boards, and other bodies and agencies, with respect to the assessment of various activities, proposals, situations or circumstances within its area; and

Such other functions prescribed by the regulations or assigned to the NRM Group by a regional NRM board, or by or under this or any other Act.
MEMBERSHIP

Section 48 of the Natural Resources Management Act provides for the appointment of the Riverland Natural Resources Management Group. The Group consists of up to 7 members, appointed by the regional NRM board, being persons who collectively have, in the opinion of the board, knowledge, skills and experience determined by the board or boards to enable the NRM Group to carry out its functions effectively.

The membership of the Riverland NRM Group during 2009-10 was:

Members
Ken Stokes
Dean Kerley
Gavin McMahon
David Reilly
Michelle Campbell
Mardi Miles
Kate Thorn
Barry Kelly
Stu Martin

Meetings: general and special

A total of 12 general Group meetings were held during the 2009-10 financial year.

Attendance by appointed members at meetings:

RELATIONSHIPS WITH OTHER AGENCIES

The Riverland NRM Group members regularly network with a number of other agencies. See list of Group member’s community links.

- Loxton to Bookpurnong LAP
- Berri Barmera LAP
- Renmark to the Border LAP
- Riverland West LAP
- Lake Bonney Management Group
- Riverland Youth Council
Central Irrigation Trust
Riverland Futures Taskforce
River Murray Youth Council
Riverland Local Government NRM Advisory Group
River Murray Advisory Committee
Banrock

GOVERNANCE ARRANGEMENTS
Riverland NRM Group Business Plan

FINANCIAL PERFORMANCE
Financial transactions are completed by the SA Murray Darling Basin Natural Resources Management Board

STATEMENT OF FACT FOR SIGNIFICANT BOARD DIRECTIVES
Under Section 47 of the NRM Act the Rangelands NRM Group area is solely contained in and under the direction of the SAMDB NRM Board.

A planning day was conducted to formulate a three year work plan for the Group as directed by the Board.

COMMITTEE LISTINGS

- Investment and Evaluation
- River Murray Advisory Committee
- River Murray WAP
- Riverland Local Government NRM Advisory Group

ACKNOWLEDGEMENTS

The Group would like to thank the Minister and staff of SA Murray-Darling Basin NRM Board for the support and encouragement that it has received over the year.
11.4 APPENDIX 4: RANGELANDS NRM GROUP ANNUAL REPORT

RANGELANDS
NATURAL RESOURCES MANAGEMENT GROUP

ANNUAL REPORT
1 July 2009 to 30 June 2010

Government of South Australia
South Australian Murray-Darling Basin Natural Resources Management Board
Dear Mr Paterson

In accordance with the requirements of the Public Sector Act 2009 and section 59 of the Natural Resources Management Act 2004, I have pleasure in presenting the annual report of the Rangelands Natural Resources Management Group for the year ended 30 June 2010.

David Lindner
Chair
Rangelands Natural Resources Management Group
NRM GROUP MATTERS CONTAINED IN THE NRM BOARD’S REPORT

The following annual reporting requirements are not included in this report as they are reported in the SA Murray Darling Basin Natural Resources Management Board’s Annual Report:

Plans and Objectives
- Links between the Board and the SA Strategic Plan
- Links between the Board and the State NRM Plan.
- Object of the Natural Resources Management Act
- Organisational Structure
- Management of Human Resources
- Employment Opportunity Programs
- Occupational, Health, Safety and Injury Management
- Account Payment Performance
- Fraud
- Reporting against the Carers Recognition Act
- Disability Action Plans
- Asbestos Management in Government Buildings
- Urban Design Charter
- Freedom of Information
- Whistleblowers Protection Act 1993
- Energy Efficiency Action Plan Report
- Greening of Government Operations Framework
- Regional Impact Assessment Statements
- Reconciliation Statement

OPERATIONS AND INITIATIVES

Significant Achievements and Initiatives
- The Group developed a Draft Goat Management Options Paper which has travelled through the Board processes for consultation with other NRM Groups, and DWLBC for their response and then presentation to the Board for action.

- The recently published Rangelands Pest Plant Ute Guides were well received within the area by landowners.

- A fact sheet on Livestock and Water Quality was printed and distributed to landowners through stock agents.

- The Group was represented at the Local Government Off Road Vehicle Forum.

- The Group actively participate annually, in the review and development of the Rangelands Operation Plan.
The Group works closely with the newly appointed SAMDB and Regional Council of Goyder, Community NRM Officer to build greater community understanding and appreciation of natural resources management including presence at local shows, grant applications for projects.

The Group has a free standing banner, which is used at local shows to promote the Group, their role and focus issues of the Rangelands area.

The Group worked collaboratively with DEH, Northern Yorke NRM Board and Greening Australia and attended the Burra and Eudunda Shows. Feedback from attendees included “this is a great idea and worthwhile” with the public more aware of NRM.

Although in its infancy, Junior Youth NRM Forums are gaining momentum with increased numbers attending activities and interest in NRM.

The Group was represented at the Board’s NRM Science Forum in Adelaide.

Group/Board staff facilitated and hosted a community event “Windows to the Watertable workshop” on 27 October 2009.

Two sets of portable goat yards are available from the Burra Office for use by landowners.

The Group were very pleased to view the “Biological Survey of Permanent Water Sites within the SA Murray Darling Basin Rangelands” compiled by the Nature Conservation Society of South Australia.

One of the Authorised Officer staff vacancies was filled in March 2010. The remaining position is still unfilled.

Group members attended the opening of the SA Museum Biodiversity Gallery on 11 February 2010.

The Group convened a Board staff facilitated, special Planning day to formulate their three year Work Plan for forwarding to the Board.

Group members and the NRM Community Officer are visiting landowners in the pastoral zone to find out what the issues are what the people want and include community education/consultation which previously hasn’t been done before.

**PRESENTATIONS, FIELD TRIPS**

All Group members attended the Board/Groups Forum held at Meningie on 2 and 3 July 2009.

Greg Sweeney from SARDI spoke on “The opportunities to support and improve sustainable livestock enterprises and their feed systems in the Rangelands”

Update on the Water Resources for the Burra region
S Sherriff from the Board spoke on the Water Affecting Activities Policy.

C Welsh from the Board spoke on “What is a WAP in the Rangelands?”
Tour of Baldon Station to view destruction of cropping and watercourse edges by wombats.
Burra staff highlighted the work done to date for the Opuntia Program for 2010-11 with a large scale area treated by June 2010

Jo Spencer from Greening Australia spoke on Habitat 141 in SA/Vic/NSW and its importance in the Rangelands.

Chowilla Station hosted the Group on 13 May 2010 enabling them to learn about land systems outside their expertise and talk to the locals.

GROUP WAS ASKED TO COMMENT ON THE FOLLOWING:-

- Draft Management Plans for Silverleaf Nightshade and Wheel Cactus.
- Position Statements – Genetic Modification, NRM Plan Implementation, Volunteers in NRM, Compliance activities during drought conditions, Defining our deliverables, Grazing, Support for sponsorship, Goat Management, Climate Change.
- Battling Boneseed in the Upper South East and SAMDB
- The Board’s Annual Budget Review and attended Board Business Plan Review meetings.
- Future Communication needs for the Group when attending local shows
- Various Board Position Statements, eg Support for Sponsorship, Goat Management, Climate Change
- Community Grant Applications
- Pre-planning for Danggali Wilderness Protection and Danggali Conservation Park
- Management Plan from DEH.
- Comment on and participate in the Board’s “Regional Outcomes Report – process and participation” workshops.

ISSUES OF CONCERN FOR THE GROUP

- Water quality and quantity of surface and underground water in the Burra area
- Management of goat numbers and options for control
- Wombats, a land management issue – are they spreading or is it climate change? Biodiversity monitoring Program with private trusts/individuals – eg Bushbanks Blocks
• Kangaroo Management

• Inability to control declared plants in the Rangelands area due to lack of staff and funding, as it is the Group’s legal responsibility under the NRM Act

• Potential opening of the old mine site at Burra if current exploration is viable and its affect on underground and surface water in the area.

The impact of the Board’s new landscape scale approach for the Rangelands, when funding of work in the region is based on focus areas.

ROLE, LEGISLATION AND STRUCTURE

The Rangelands Natural Resources Management Group was established on 16th February 2006 under the auspices of the Natural Resources Management Act 2004. This report for the 2009-10 financial year fulfils the requirements of Section 57 of the Natural Resources Management Act.

ROLE OF THE GROUP

The Boards’ role is defined in the Natural Resources Management Act and includes:

• Taking an active role in the management of natural resources within the region and providing advice on natural resource issues;

• Preparing a regional natural resources management plan;

• Implementing the Board’s three-year business plan;

• Promoting public awareness and understanding of the importance of integrated and sustainable NRM;

• Providing advice on the assessment of activities or proposals referred under legislation or on any matter relevant to the condition or management of natural resources; and

• Undertaking and supporting educational activities and increasing community capacity to undertake sustainable natural resource management.

FUNCTIONS OF THE RANGELANDS NRM GROUP

Section 52 of the Natural Resources Management Act describes the functions of the Rangelands Natural Resources Management Group:

(1) The functions of a regional NRM Group are—

(a) to be actively involved in the development and implementation of any relevant regional NRM plan at the local level (to the extent specified or envisaged by that plan or specified by the relevant board or boards); and

(b) to develop, implement or participate in programs associated with natural resources management at the local level; and
(c) to promote public awareness of the importance of integrated and sustainable natural resources management within its area and to undertake or support educational initiatives with respect to natural resources management; and

(d) to provide advice to regional NRM boards, and other bodies and agencies, with respect to the assessment of various activities, proposals, situations or circumstances within its area; and

Such other functions prescribed by the regulations or assigned to the NRM Group by a regional NRM board, or by or under this or any other Act.

MEMBERSHIP

Section 48 of the Natural Resources Management Act provides for the appointment of the Rangelands Natural Resources Management Group.

The Group consists of up to 7 members, appointed by the regional NRM board, being persons who collectively have, in the opinion of the board, knowledge, skills and experience determined by the board or boards to enable the NRM Group to carry out its functions effectively.

The membership of the Rangelands Group during 2009-10 was:

Members
David Lindner
Harvey Neal
Kevin Smith
Jane Kellock
Jacki Mattey
Alicia Patten
Jo Gebhardt

MEETINGS: GENERAL AND SPECIAL

A total of six general Group meetings were held during the 2009-10 financial year.

A total of two special Group meetings (Goat Planning by phone and Work Plan) were held during the 2009-10 financial year.

11.5 APPENDIX 5: RANGES TO RIVER NRM GROUP ANNUAL REPORT

RANGES TO RIVER
NATURAL RESOURCES MANAGEMENT GROUP

ANNUAL REPORT
1 July 2009 to 30 June 2010
Mr Bill Paterson  
Presiding Member  
SAMDB Natural Resources Management Board  
PO Box 2343  
MURRAY BRIDGE   SA   5253  

31 August 2010  

Dear Mr Paterson  

In accordance with the requirements of the Public Sector Act 2009 and section 59 of the Natural Resources Management Act 2004, I have pleasure in presenting the annual report of the Ranges to River Natural Resources Management Group for the year ended 30 June 2010. 

Monique White  
Acting Chair  
Ranges to River Natural Resources Management Group
NRM GROUP MATTERS CONTAINED IN THE NRM BOARD’S REPORT

The following annual reporting requirements are not included in this report as they are reported in the Ranges to River Natural Resources Management Board’s Annual Report:

**Plans and Objectives**

- Links between the Board and the SA Strategic Plan
- Links between the Board and the State NRM Plan.
- Object of the Natural Resources Management Act
- Organisational Structure
- Management of Human Resources
- Employment Opportunity Programs
- Occupational, Health, Safety and Injury Management
- Account Payment Performance
- Fraud
- Reporting against the Carers Recognition Act
- Disability Action Plans
- Asbestos Management in Government Buildings
- Urban Design Charter
- Freedom of Information
- Whistleblowers Protection Act 1993
- Energy Efficiency Action Plan Report
- Greening of Government Operations Framework
- Regional Impact Assessment Statements
- Reconciliation Statement

**OPERATIONS AND INITIATIVES**

**Significant Achievements and Initiatives:**

- Group members attended the Annual Board/Group’s Forum hosted in the Mallee/Coorong NRM Group area at Meningie on 2 and 3 July 2009.

- After drawing the Board’s attention to the damage occurring within its area by off road vehicles, with the Board last financial year, the Group Chair attended an “Off Road Vehicles Forum” hosted by the Local Government Association on 28 July 2009. This huge statewide issue still needs to be addressed adequately.

- Following on from last year’s initiative, of displaying specific river data for the public’s interest on signs on Ferry’s within the Board area, only two signs have been designed and completed for attachment on the Mannum and Swan Reach Ferry’s.

- The group produced and distributed show bags for Horses in Action competitors at the Murray Bridge Show on 26th and 27th of September 2009.

- Members from the Group also attended the Strathalbyn Show on 5 October 2009 with other local community groups and featured a declared plant display.
- The 2009 Rainfall Chart was such a success, that a reprint of 2,000 copies was made in February 2010.

- The Group instigated and in conjunction with Bremer Barker Catchment Group Inc hosted a very successful “Ranges to River Science Forum” at Mt Barker Golf Club on 25 August 2009 with over 100 people attending. Six speakers spoke on topics of Planning, Development, Geography, Waste Management, Transport and Agriculture in Peri-urban environment.

- Group members attended the opening of the Purtinga Wetland Opening and dedication at Cornerstone College Mt Barker on 15 September 2009.

- Off-road vehicle damage in the R2R and other Group areas has been raised as a significant concern for some time. After some early negotiations, the Local Government Association then took the lead and co-ordinated a Forum on 28 July 2009 which was attended by some Board staff and Group members to devise a way forward on the issue.

- The Group successfully obtained a further grant through the Bremer Barker Catchment Group Inc and hosted a “Water Smart Forum” for students and community members on 4 June 2010 at Cornerstone College Mt Barker with over 140 attending. Significant Group member effort and participation went into the staging of this very successful event.

- Updated the Group’s Work Plan for 2010, which encompasses specific activities that the Group wish to undertake during the year.

- Media Releases were initiated by the Group including Soil erosion,

- Group members actively participated with a site, in conjunction with the AMLR NRM Board at the Mt Pleasant Show on 20 March 2010 and the Mt Barker Show on 27-28 March 2010.

- Participation in NRB Board Hotspot Evaluation process.

- Two new Group members were welcomed to the Group for the last meeting of the financial year in June.

**PRESENTATIONS**

- Hydro Vortex Blade – Dean Thomas and Rick Capaldo – In the design stage and they wish to trial in the Murray Mouth to drag sand back out to sea keeping the Mouth open using wave action.

- Eastern Mt Lofty Ranges Water Allocation Plan update by Lyz Risby.
“How can CSIRO create national momentum around the topic of climate change and its relation to energy, what will change the way Australians think and act about energy and climate change?” Sarah Crossman from SA Energymark spoke on how this project brings small groups of people together to discuss climate change, energy technologies and behaviour.

- Building and Home Sustainability Information session – Australian Governments Green Loans Program – providing assessments and interest-free Green loans for recommended improvements.

- Group members attended the opening of the SA Museum Biodiversity Gallery on 11 February 2010.

- Water Dropwort in the Meadows Creek area and the significant impact that this “Sleeper Weed” has on agriculture in the area.

- Visited Paiwalla Wetlands to view the area, its history, current status and future directions.

- The Lakes Hub at Milang – highlighted how it was developed, projects being undertaken and initiatives to support the community in the Lower Lakes.

- Update on developments within the Dairy Industry

**GROUP WAS ASKED TO COMMENT ON THE FOLLOWING:**

- Draft Management Plans for Silverleaf Nightshade and Wheel Cactus

- Battling boneseed in the Upper South East and SAMDB

- The Board’s Annual Budget Review and attended Board Business Plan Review meetings.

- Future Communication needs for the Group when attending local shows

- Various Board position Statements, eg Support for Sponsorship, Goat Management, Climate Change

- Community Grant Applications

**ROLE, LEGISLATION AND STRUCTURE**
The Ranges to River Natural Resources Management Group was established on 21st February 2006 under the auspices of the *Natural Resources Management Act 2004*. This report for the 2009-10 financial year fulfils the requirements of Section 57 of the Natural Resources Management Act.
ROLE OF THE GROUP
The Boards’ role is defined in the Natural Resources Management Act and includes:

- Taking an active role in the management of natural resources within the region and providing advice on natural resource issues;
- Preparing a regional natural resources management plan;
- Implementing the Board’s three-year business plan;
- Promoting public awareness and understanding of the importance of integrated and sustainable NRM;
- Providing advice on the assessment of activities or proposals referred under legislation or on any matter relevant to the condition or management of natural resources; and
- Undertaking and supporting educational activities and increasing community capacity to undertake sustainable natural resource management.

FUNCTIONS OF THE RANGES TO RIVER NRM GROUP
Section 52 of the Natural Resources Management Act describes the functions of the Ranges to River Natural Resources Management Group:

(1) The functions of a regional NRM Group are—

(a) to be actively involved in the development and implementation of any relevant regional NRM plan at the local level (to the extent specified or envisaged by that plan or specified by the relevant board or boards); and

(b) to develop, implement or participate in programs associated with natural resources management at the local level; and

(c) to promote public awareness of the importance of integrated and sustainable natural resources management within its area and to undertake or support educational initiatives with respect to natural resources management; and

(d) to provide advice to regional NRM boards, and other bodies and agencies, with respect to the assessment of various activities, proposals, situations or circumstances within its area; and

Such other functions prescribed by the regulations or assigned to the NRM Group by a regional NRM board, or by or under this or any other Act.

MEMBERSHIP
Section 48 of the Natural Resources Management Act provides for the appointment of the Ranges to River Natural Resources Management Group.

The Group consists of up to 7 members, appointed by the regional NRM board, being persons who collectively have, in the opinion of the board, knowledge, skills and experience determined by the board or boards to enable the NRM Group to carry out its functions effectively.
The membership of the Ranges to River NRM Group during 2009-10 was:

**Members**
Bruce Munday
Beryl Belford
Monique White
Greg Sarre
Inez Bormann
Ceris Crosby
Matthew Starick
Paul Barnes
Deana Mildren

**MEETINGS: GENERAL AND SPECIAL**
A total of 11 general Group meetings were held during the 2009-10 financial year.

A total of NIL special Group meetings were held during the 2009-10 financial year.

**RELATIONSHIPS WITH OTHER AGENCIES**
Group members regularly network with a number of other agencies. See list of Group member community links.

**GOVERNANCE ARRANGEMENTS**
- R2R Work Plan 2009-2010
- R2R Operations Plan 2009-2010 (some new inclusions were Water dropwort, quarries, railway corridors, livestock inspections and goats).

**FINANCIAL PERFORMANCE**
Financial transactions are completed by the SAMDB Natural Resources Management Board
STATEMENT OF FACT FOR SIGNIFICANT BOARD DIRECTIVES

Under Section 47 of the NRM Act the Ranges to River NRM Group area is solely contained in and under the direction of the SAMDB NRM Board.

STATEMENT OF FACT FOR SIGNIFICANT FUNCTIONS ASSIGNED BY THE BOARD

The Group had an active presence at the Mt Pleasant Show on 20 March 2010 and the Mt Barker Show on 27-28 March 2010 collaborating with the adjoining Adelaide and Mt Lofty Ranges NRM Groups and local NRM community groups. This joint participation further built on cross boundary cooperation and dissemination of information and advice for Hill’s small property owners, commenced at 2009 shows.

Group members actively participated in programs associated with natural resources management at the local level through their involvement with MDBA CAC Lower Lakes Consultation, EMLR WAP CAC, Murray Plains Crop Competition, R2R Local Government Advisory Committee, River Murray Advisory Committee, Investment and Programs Committee, Bremer Barker Catchment Group, Eastern Hills and Murray Plains Catchment Group, Goolwa-Wellington LAP and Mid Murray LAP, Mt Barker NRC Management Committee, Mt Pleasant NRC, Tungkillo Landcare Group.

COMMITTEES LISTING

- Mt Barker Natural Resources Centre Management Committee
- Bremer Barker Catchment Group
- Bird in Hand Treatment Plant Community Advisory Committee
- Goolwa-Wellington LAP Association
- Hillgrove Community Consultation Committee
- Mid Murray LAP
- Mid Murray Council
- Eastern Hills & Murray Plains Catchment Group
- Mt Pleasant Natural Resources Centre Management Committee
- Rodwell Creek/Wistow Landcare Group
- Tungkillo Landcare Group
- Monarto Shooting Complex
- Native Vegetation Council
- District Council of Mt Barker
- Marne North Rhine Saunders Catchment Group
- Local Government Native Vegetation Act Review Working Group
- Ranges to River Local Government NRM Advisory Committee
- Lower Murray River Drought Reference Group
- River Murray Advisory Committee
- Murray Mallee Local Government Association
- Marne North Rhine Saunders Creek Catchment Group
- Murray Darling Association
- EMLR WAP CAC
- Mannum to Wellington LAP
ACKNOWLEDGEMENTS

The Group would like to thank the Minister and staff of SA Murray Darling Basin Natural Resources Management Board and the Bremer Barker Catchment Group for the support and encouragement that it has received over the year.

ANNUAL REPORT

1 July 2009 to 30 June 2010
Mr Bill Paterson
Presiding Member
SA Murray Darling Basin Natural Resources Management Board
PO Box 2343
MURRAY BRIDGE SA 5253

Dear Mr Paterson

In accordance with the requirements of the Public Sector Act 2009 and section 59 of the Natural Resources Management Act 2004, I have pleasure in presenting the annual report of the Mallee and Coorong Natural Resources Management Group for the year ended 30 June 2010.

Yours sincerely,

[Signature]

Allan Piggott
Presiding Member
Mallee and Coorong Natural Resources Management Group
NRM GROUP MATTERS CONTAINED IN THE NRM BOARD'S REPORT

The following annual reporting requirements are not included in this report as they are reported in the South Australian Murray-Darling Basin Natural Resources Management Board’s Annual Report:

PLANS AND OBJECTIVES

- Links between the Board and the SA Strategic Plan
- Links between the Board and the State NRM Plan.
- Object of the Natural Resources Management Act
- Organisational Structure
- Management of Human Resources
- Employment Opportunity Programs
- Occupational, Health, Safety and Injury Management
- Account Payment Performance
- Fraud
- Reporting against the Carers Recognition Act
- Disability Action Plans
- Asbestos Management in Government Buildings
- Urban Design Charter
- Freedom of Information
- Whistleblowers Protection Act 1993
- Energy Efficiency Action Plan Report
- Greening of Government Operations Framework
- Regional Impact Assessment Statements
- Reconciliation Statement

OPERATIONS AND INITIATIVES

Meetings are held in a variety of locations throughout the Mallee and Coorong NRM group area, with regular guests including:-

- Coorong & Murray Mallee LAP – Graham Gates, Rowena Danks,
- Deputy General Manager SA MDB NRM Board – Denise Fowles
- Team Leader Mallee Coorong – Paul Gillen, Steve Baltussen
- Mallee Water – Clinton Seekamp, Joy and Rob Ziersch, Cameron Welsh, Sarah Kuchel
- Soil Issues – Berni Lawson
- Other SA MDB NRM Board guests have included:
- Bill Paterson Presiding Member SA MDB NRM Board
- Sustainable Farming – Leighton Pearce
- Biodiversity - Sarah Lance
The Group has undertaken a number of tours to better understand natural resource issues around the area. Tours have included:

- Lower Lakes – Towitcherie Barrages, Raukkan and Camp Coorong at the combined board/group forum
- Ian Farley’s property at Peake to view and hear about a rehabilitated 90ha bare sand hill, which now has good cover.
- Olive Grove near Peake
- Parilla Premium Potatoes expansion
- Pomegranates Australia orchard near Wanbi
- Bioremediation, fencing of the Lower lakes and visit to The Narrows near Meningie

To further the knowledge of members and bring them up to date a number of guest speakers have attended and informed the Group. In the 2009/10 year they have been:

- Lew Westbrook, chairman of the Browns Well Landcare Group on the Goat problem facing the landowners on the west of the Sunset National Park.
- Chris McDonough, Rural Solutions, on Mallee Sustainable farming and rehabilitation of the Mindarie Zircon mine sites.
- Glen and Tracey Hill, fishermen, Meningie spoke on the Fishdown carried out earlier in the year in Lake Albert to catch large amounts of carp.
- John Howard (DEH) spoke on the current health of the Lower lakes and the proposed management plan for the Lakes
- Students from Lameroo Regional community School presented the River health program they run at their school
- Group members have accompanied Bernadette Lawson (Principal project Manager, Land Management) when viewing properties in the area with soil degradation issues.
- A combined meeting was held with the Mallee Water Resources Committee to better understand the draft Mallee WAP and help prepare for public consultation once the draft WAP is released.
- To promote the Mallee and Coorong NRM Group, the group produced a rainfall chart with contact details for all group members and information on the Group. Small articles have also appeared in Council community newsletters and LAP newsletters on the Group.

ROLE, LEGISLATION AND STRUCTURE

The Mallee and Coorong Natural Resources Management Group was established in December 2004 under the auspices of the Natural Resources Management Act 2004. This report for the 2009-10 financial year fulfils the requirements of Section 57 of the Natural Resources Management Act.
ROLE OF THE GROUP
The Groups’ role is defined in the Natural Resources Management Act and includes:

- Work collaboratively with NRM Groups who adjoin the Mallee and Coorong area
- Take an active role in the management of natural resources within the region
- Provide advice on natural resource issues
- Support the Board on natural resource management implementation
- Support committees active in resource management in the area, through membership
- Promote public awareness on natural resource management in the area
- Preparing an annual work plan for the Mallee and Coorong NRM Group.

FUNCTIONS OF THE MALLEE AND COORONG NRM GROUP
Section 52 of the Natural Resources Management Act describes the functions of the Mallee and Coorong Natural Resources Management Group:

(1) The functions of a regional NRM Group are—

(a) to be actively involved in the development and implementation of any relevant regional NRM plan at the local level (to the extent specified or envisaged by that plan or specified by the relevant board or boards); and

(b) to develop, implement or participate in programs associated with natural resources management at the local level; and

(c) to promote public awareness of the importance of integrated and sustainable natural resources management within its area and to undertake or support educational initiatives with respect to natural resources management; and

(d) to provide advice to regional NRM boards, and other bodies and agencies, with respect to the assessment of various activities, proposals, situations or circumstances within its area; and

Such other functions prescribed by the regulations or assigned to the NRM Group by a regional NRM board, or by or under this or any other Act.

MEMBERSHIP
Section 48 of the Natural Resources Management Act provides for the appointment of the Mallee and Coorong Natural Resources Management Group. The Group consists of up to 7 members, appointed by the regional NRM board, being persons who collectively have, in the opinion of the board, knowledge, skills and experience determined by the board or boards to enable the NRM Group to carry out its functions effectively.
The membership of the Mallee and Coorong NRM Group during 2009-10 was:

Members
Allan Piggott, Chairman
Keith Scobie
Clem Mason
Gordon Hancock
Damian Berger
Steve Murray
Donna Nussio

MEETINGS: GENERAL AND SPECIAL
A total of 9 general Group meetings were held during the 2009-10 financial year.

Attendance by appointed members at meetings:

RELATIONSHIPS WITH OTHER AGENCIES
The Mallee and Coorong NRM Group members regularly network with the committees listed on page 10 of this report.

The Group also liaises with the former Department of Environment and Heritage (DEH) staff at Lameroo and will continue with relationship with the new Department of Environment and Natural Resources (DENR) staff there.

The Group have also been heavily involved with the preparation and content of the Peake Roby Sherlock Water Allocation Plan which is awaiting approval, and the Draft Mallee Water Allocation Plan, which will soon be going to public consultation.

GOVERNANCE ARRANGEMENTS
Mallee and Coorong Work Plan 2010

FINANCIAL PERFORMANCE
Financial transaction are completed by the SA Murray-Darling Basin Natural Resources Management Board
STATEMENT OF FACT FOR SIGNIFICANT BOARD DIRECTIVES

Under Section 47 of the Natural Resources Management Act, the Mallee and Coorong NRM Group area is solely contained in and under the direction of the SA Murray-Darling Basin NRM Board.

STATEMENT OF FACT FOR SIGNIFICANT FUNCTIONS ASSIGNED BY THE BOARD

The Mallee and Coorong NRM Group members provided comment on the Draft Peake Roby Sherlock Water Allocation Plan.

The Group was also consulted on the following NRM Volunteer Small Grants and NRM School small grants:

- Mantung Maggea Land Management Group for Mallee Fowl & habitat conservation project
- Coorong & Mallee Farm Forestry Network for Acquisition of forestry plantation tools for shared community use
- East Murray Area School family grove revegetation project
- Pinnaroo Primary School garden project
- Raukkan Aboriginal School for establishing sustainable food garden.

COMMITTEE’S LISTING

The Mallee and Coorong NRM Group have representatives which regularly attend meetings on the following committees:

- Murray Mallee Local Action Planning Group
- Coorong Local Action Planning Group
- Regional Integration Committee
- River Murray Advisory Committee
- Mallee Water Resources Committee
- Box Flat Dingo Control Coordinating Committee
- Investment and Evaluation Working Group
- Mallee Sustainable Farming Group
- Mallee Coorong Local Government NRM Advisory Group
- Ramsar Task Force
- Murrayville Water Supply Protection Area Committee

ACKNOWLEDGEMENTS

The Group would like to thank the Minister and staff of SA Murray-Darling Basin NRM Board, the Murray Mallee LAP and the Coorong LAP for the support and encouragement that it has received over the year.
